### Reference for Sandor Bercsenyi

Dear Sandor,

We would like to confirm

- that you have made a test translation which we had been satisfied with;
- that you were involved in a translation project for one of our key accounts; your translation from English into Hungarian was without any further remarks, but we had got neither any bad nor good feedback from our client;
- that communication and administrating were frictionless;
- that we would intend to commission you with further translation in this combination which is unfortunately quite unusual in our project portfolio.

You may use our confirmation as a reference in case you leave out the name of our client.

Kind regards,

Jörg
