
New Chairman's Club Members

Portugal – January 2005

Congratulations to New Chairman's Club Members

Natália Ferreira & José Paulo Dinis

Natália was a university student and was working part-time, accommodated to a less brilliant future than the one she had dreamt of, when in July 1992, at the age of 23, she was invited to an Extravaganza. It was then that her horizons gained a new perspective.

Today, she still believes that what made her believe in this opportunity was to know that, above all, she had nothing to lose and also because, deep down inside, she still hadn't completely given up on dreaming. It was mainly the attitude, smile and passion of Mark Hughes who attracted and filled Natália with enthusiasm and made her believe that she could do it.

After this magical meeting many things happened.... The passion for the products, meetings, more and more meetings, kilometres, more and more kilometres, calls, more and more calls... The first year was impressive and in the end Natália qualified President's Team!

"These have been fantastic years; from event to event we grow a little more: myself, the organization, the check"!

In 1997, she met Zé Paulo and this marked one of the most important steps in her life and in the business they now share.

"To be able to do this business as a family is absolutely magical, allowing us to have a fabulous lifestyle, travel all over the world and fulfil our biggest dreams. To qualify for Chairman's is absolutely thrilling, an honour and a responsibility, it is incredible to look back and to see where we were and where we have arrived. Thank you all, the Company and the Distributors for helping our dreams come true and a huge and a special THANKS to Mark for having created this magical company called Herbalife!"

Congratulations Natália and José Paulo
We are proud to welcome you to the prestigious Chairman's Club!

Income applicable to the individual (or examples) depicted are not typical. For typical financial performance data see the Statement of Average-Gross compensation for U.S. Supervisors on www.Herbalife.com or www.myherbalife.com.

Making the world healthier.
