MALAWI HANDCART PROJECT

544 EIGHTH STREET

BROOKLYN, NEW YORK 11215

U S A

Dear Sir/Madam,

I would like to inform you
that I got the cameras on the
behalf of my two friends Swart Msiska
and Mr Simwera on from Mrs Brown-lee
on Mon/14th/5/01.

On our team, we are now
ready for demonstrations because we
got hand-carts from Dr Brown quite
alright. The heavy rain which has
been falling in some few months ago
has now stopped and many people are
harvesting their crops now.

P To

As I am writing this letter we're busy doing demonstration around Livingstonia Community, and many participants are giving orders to make them cheaper hand-carts by providing us their own oldnary Bicycle wheels. By the end of this month on wares you ^{will} start receiving our reports because it is dry now rather than before.

Do not be disappointed, I personally am much Concern with this project therefore I appeal to you as our officer that please Support us so that many Malawians should benifit from this project especially our friends who are in flat areas like Karonga District and Mzimba even some parts of Rumphi where by we can not be able to go on foot to demonstrate the carts. I hope you received my first letter.

I know for sure that with just words you can not trust but as far as we are having cameras & you will soon believe that we are doing the job through photos. Mr Longwe; he has to be appreciated for the good job he has done for us because without him it would be something very hard for us to get these carts though it took along period to be made.

I myself I visited Karonga District and there is a high demand of the carts, I tried to refer them to Livingstonia Technical College and phwazi Technical School, they were saying that "we being local communities we can afford to go there". Though you are far there in USA but we would love to hear your advice Sir.

Your early Consideration will be highly appreciated.

HAND-CRAFTED DEMONSTRATOR: HUDSON Z. CHISAMBO
