Introduction

Vickie and I always wondered why it was that so many folks who succeed in Real Estate wind up writing a course on how to do it. That is, until we had our own success in Real Estate Investing.

Using the same strategies that we teach in this program, we started investing in single family homes with No credit checks, No Bank Qualifying, and usually \$1-10.00 down!

We're talking nice homes in nice neighborhoods here! We could have been unemployed, filed bankruptcy seven times, and it still would not have made one bit of difference in controlling these homes – and that's the truth!

Oh sure, the first time maybe we were just lucky. Maybe the second time was a fluke. But after having success time and time again, on a consistent basis, we believe that it is neither luck nor a fluke, but a **serious clue** that this method is not only unbelievably powerful...it just flat out works, for anyone in any situation!

When we'd chat with our friends, they would always ask the same question about our Real Estate investments made with no credit check (and most often less than \$10 down):

“How Did You Do That?”

It was after sharing our strategies with our friends and watching their wild success in Real Estate—almost overnight—that we decided to develop a course that **anyone** can take, and within 90 days, regardless of credit history or financial situation, control a beautiful piece of property for as little as \$1.00 - \$10.00 down.

Let me clear something up right now, throw it right on the table. This is not a course for the “experienced” investor. This is a course for the average person who is sick and tired of being sick and tired. The men and women of this nation who want information that is simple enough to understand, quick to read, and powerful enough to execute immediately to secure your first investment property or dream home within 90 days.

If you’ve purchased any program on Real Estate investing before, it probably came with a thick course book and somewhere in the vicinity of 36 hours of cassette tapes! Now, I don’t know about you, but we didn’t have the time or patience to listen to 36 hours of recordings, much less review the material on a regular basis.

Most of these courses will teach you “100 ways to do a deal”. Because there are so many ways to make money or to invest in Real Estate today, we often found ourselves even **more confused** after going through a course!

You see folks, we really did not want to learn 100 ways to buy a piece of property. We just wanted to know the best way that would work for little old us.

There had to be an easier way! I mean, did it really have to be so complicated that it required us to submit to 36 hours of torture of listening to the most boring person ever recorded?

We just wanted somebody who has “done it” and is currently doing Real Estate to “**Cut To The Chase**” and tell me **today** what I need to do to make **Profits Quickly!**

*Once again, our course is designed
to be digested quickly and executed immediately, **within 90 days!***

We are not experts in Real Estate, nor do we claim to be. We are simple, everyday folks who didn’t have a choice but to succeed in Real

Estate and have developed some **Powerful** strategies that work **immediately**, if you work them.

We have bought and studied countless courses on creative real estate and lease options and even paid thousands of dollars for personal coaching and we can honestly say that **nobody taught us the secret of controlling real estate with no credit checks or our \$1.00 - \$10.00 down technique.**

We developed this **powerful** technique and we have **never had a problem** when presenting it to a homeowner. They gladly accept it as my down payment if it is presented properly.

In this course, we will detail exactly how to present your \$1.00-\$10.00 offer, so it will be warmly and gladly accepted.

So there you have it, warts and all. If you are ready to secure your first investment property, or perhaps your dream home, within the next 90 days, we promise you that you're in the *right place* at the *right time* and by the end of this course **you're going to know it!**

Let's get started!
