

Homework #1  
Due 2 September 2003

Send an email to [skatersaurus@excite.com](mailto:skatersaurus@excite.com) with the following information:

Your name  
Your student ID number  
Your major  
Any experience with ion beam assisted materials processing  
Any specific material that you would like to see covered in the class  
A nickname

The nickname is between you and me only. Do not select a nickname that anyone else in the class will be able to figure out. This nickname will be used to identify you on the grade sheet posted on the website. (I am not a big fan of posting a list of what are basically social security numbers)

When I receive your email I WILL REPLY BACK TO YOU. Please print out my reply and hand it in on the 2<sup>nd</sup>. This way, you know that I got your email, and I know that I got your email right. If you did not get a reply, it means that something went wrong and you should try again. The only way to get full credit for this homework assignment is to hand in the reply that I sent you.
