

Math Tutoring Testimonials

(Optional)

I have been tutoring many of my San Jose area clients for several months now. I am hoping to gather some “testimonials” of my work with my students. Excerpts from the testimonials may be used on my website and in other advertising venues, but **I will use only initials instead of full names** to protect confidentiality.

Here are some ideas to consider while writing comments to me on the lines below:

1. Has the student’s grade/GPA changed since we first began tutoring sessions? How does this make you feel?
2. Has the student’s confidence/anxiety level changed since we first began tutoring sessions? How does this make you feel?
3. Has the student become more organized, consistent, careful or independent as a result of tutoring?
4. How do you feel about Stephanie’s professionalism? Her rapport/connection with the student?
5. How has tutoring affected the student’s plan for his/her future education (college, honors courses, etc.)?
6. How does Stephanie compare with other teachers/tutors you have encountered?
7. Would you recommend Stephanie to others?
8. Here is an example if you’d like one (however, please use your own words!):

"Stephanie has been an exceptional tutor for my high school daughter, C. She has a teaching credential *and* a Bachelor’s Degree in math, so I knew she was qualified. More importantly, my daughter’s confidence in math has always been low, but as she has worked with Stephanie, she has gained tremendous confidence. She now is an “A” student in math (up from a C-minus!) and says that her Algebra II course is much easier for her. Stephanie has also helped C. become more independent; she now requires very little assistance in completing homework thoroughly and punctually. Stephanie was able to target C.’s specific needs (organization, factoring, etc.), and she is a positive, professional influence in C.’s life. C. looks forward to her weekly sessions with her. I highly recommend Stephanie as a resource for your child’s success in mathematics." --M. P., Parent of a Saratoga High School Student

Date: _____

Student’s Math Level: _____

*Stephanie can use my email address on her website. **YES / NO** (circle one)

Student’s Name (Confidential): _____

Student’s School Name: _____

*Stephanie can give my phone number and/or email address to clients who want her past references. **YES / NO** (circle one)
