**500,000 CHILDREN IN THE UNITED STATES ENTER CRITICAL CARE FACILITIES** and need help as they experience illness, trauma and sometimes death. Uncertainty, fear, pain and insecurity befall every one of them, as they struggle to regain life. You are their champions who can make an environment of compassion, comfort and understanding have immediate and strategic significance. Under the guidance of the Johns Hopkins Children's Center Child Life Department; Courage Unlimited Corporation has developed creative solutions to help children more easily convey the information needed in their treatment; while engendering hope and bolstering courage.

**You can make a difference beyond your wildest dream in the lives of these critically ill, traumatized and abused children by supporting Courage Unlimited a 501 (c) (3) corporation, with an IRS tax deductible contribution.**

This unprecedented effort has provided insight for the design of new creations that will enhance interaction between the children and medical professionals; while moving trust and fortitude to an exceptional level. Supporting these children in their extraordinary quest for courage will be their friend "Duffy the Lion" augmented by a perceptive and well illustrated 32 page children's book entitled "Courage Pockets" and an exciting audio book including narration plus encouraging songs and music by insightful artists.
