

aXis summer project workplace covenant

The aXis summer project requires that all students participating obtain a job. In an effort for a healthy relationship to be created in the workplace consisting of employees with integrity and satisfied employers we have created this written covenant for both parties. This covenant states that the employee will be committed to working for the employer from the start of _____ to at least the end date of Thursday, July 26, 2007*. This job will be worked by the employee *Monday through Friday only*. The employee may work between 35-45 hours per week within the previously listed times.

The employee will commit to being on time, will not miss work (unless dire circumstances arise and the absence is approved by the aXis Team Leader), and fulfill the role of the job as determined at the above starting date. The employer will commit to the above schedule of the employee and guarantee work for the employee through the end date.

Name of Business

Start Date through End Date

Employer Signature

Employee Signature

Team Leader Signature

*Employees are allowed to work after this date if needed. This must be determined solely between the employee and employer. Friday, July 27, 2007 has been reserved to allow the participants to pack up before leaving on the 28th. If the employee is working later than this time, permission will need to be granted.
