

Merrimac Dog Training Club
15 Newsome Place
Hampton, Virginia
Pat Miller Seminar
August 23-24, 2008

Saturday Morning:

Body Talk: Our social structures are similar, but our body languages are very different. Discover how to send the right messages to your dogs, and how to use body talk to your best advantage for training and relationship purposes.

How Dogs Think and Learn: What's going on inside those canine brains? How *do* dogs think and learn? Perhaps surprisingly to some, not so differently from the way *we* do. This seminar helps you make sense of the sometimes confusing world of operant and classical conditioning, and more.

(This is an important foundation for the afternoon)

Afternoon:

Positive Solutions for Aggression and Other Behavior Problems: Apply the principles of behavior and learning to resolve problem behaviors without the use of force. It's easier than you think...!

Cost: \$100.00 MDTC Members: \$60.00

Early bird special: Register before July 15th for just \$80.00

Sunday: Working workshop

Clicking for Competition: Use clicker training to refine your dog's performance for the Rally or Obedience arena – add points and half-points to your scores by shaping straighter sits and fronts, tighter finishes, faster recalls and better attitudes

Limit: 12 working participants and unlimited auditors

Cost: \$150.00 for working slot

\$100.00 MDTC Members

Auditors: \$60.00

\$120.00 early bird registration if received before July 15th.
