

ID&C Grading Policy

Grades will be based primarily on projects completed during the course of the year. These projects will consist of the following;

Publisher presentations based on research assigned for the subject area..

Projects constructed for the subject area.

Performance of projects during testing or competitions.

Grades will also be given for Attendance, Lateness and Students Performance. Tests and quizzes may also be given during the course of the year.

The Attendance/Lateness grade will be for each marking period. All students will start with 100 each marking period and 4 points will be deducted for each absence or lateness. Points deducted for absences can be made up if the student makes up the work/lesson after school. Points deducted for lateness cannot be made up.

The Students Performance grade will be based on my evaluation of whether the student is performing satisfactorily and cooperating in class.

Each marking periods grade will be the total of the grades for the marking period plus the grade from any preceding marking periods divided by the number of grades making up the total.
