

Combining the best of
LAN and the Web.

OKIFAX® T.37-configured facsimile machines incorporate the T.37 Internet fax protocol to merge the worlds of fax and e-mail into an information distribution network based on the best features of both systems.

OKIFAX T.37 units can scan hard-copy documents and transmit them as .pdf or .tiff files via e-mail to any other email address, as well as receive e-mail transmissions that can be printed out as fax documents. Their standard broadcast feature enables OKIFAX T.37 Internet/LAN Fax to distribute documents to groups of fax machines or groups of e-mail accounts with the ease of transmitting a single fax.

Unimessage™ Pro
Integrated Messaging Software

All OKI Fax/MFP products¹ are compatible with Unimessage™ Pro, a fully scalable and integrated software package that allows you to use fax, Internet, data, copy, print, scan and e-mail functions all from one system.

With Unimessage Pro, you can choose which communication method is best for a specific recipient, and there's no need to open a different application for each form. The software enables you to receive a mixture of e-mails, data files and faxes into one universal in-box.

Work faster and more productively with OKI Fax/MFP and Unimessage Pro document management software.

¹ Except the OKIFAX 5400.

OKI® Fax/MFP

A Full Line of Digital MFP and
Internet/LAN Fax Solutions Designed
to Increase the Productivity of
Your Business.

OKI®... the name and brand
behind the technology

Oki Electric Industry Co., Ltd (our parent company) is known as the “Alexander Graham Bell of Japan” because they’ve been mass-producing telephones since 1881. They pioneered facsimile technology—designing and manufacturing fax machines since 1975. And they have always been at the forefront of Digital LED printing.

Today’s OKI® Facsimile and Multifunction (MFP) machines are designed to work the way you do, to help you to be more productive by getting the job done quickly and efficiently.

Each offers strong value, starting with the purchase price and extending through its operating life. And all have the convenience of expandability, to continue meeting your demands as usage requirements change.

Whether your goal is to expand or improve your business communications capabilities, there’s a reliable, efficient, productivity-enhancing OKI machine to get you there.

Trust OKI for proven
customer satisfaction.

OKI is also an innovator in customer support, pioneering the still-unsurpassed 5-year limited LED printhead warranty, as well as 24-hour/7-day live technical support¹ and other cutting-edge programs designed to ensure full customer satisfaction.

From product concept to customer support, all OKI Facsimile and Multifunction products deliver on our proven commitment to innovative thinking and productivity-enhancing performance.

OKI Fax/MFP.
**Designed to perform in the most
demanding environments.**
