**STEPS FOR USING THIS SCORESHEET:**

- American or National?**  
Circle the league designation (American or National) that your team will use.
- Who's the Home Team?**  
Randomly determine whether your team is the home or the visiting team. (If the home team is from the National League™, pitchers appear in the batting lineup. Teams playing American League™ games may start with hitters in all 9 spots.)
- Trotting Out to the Mound...**  
Write the starting pitcher's name on the appropriate line in the "Pitching Statistics" section to the left.
- Leading Off...**  
List the name of each hitter in your batting lineup on the appropriate line in the "Batting Statistics" section. Be sure to list the field position each hitter is playing, too.
- Play Ball!**  
After each of your hitters bat in an inning, list the result in the player's diamond for that inning using the examples below. If players reach base, show their progress around the bases.  
  
*For Pitchers:* Each time a pitcher gives up a run, fill in the appropriate circle next to his name. Each time a pitcher gives up 3 runs, his IP go down by 1 this game.
