

CURRICULUM VITAE

Personal Details:

Name : Al-Jada', Mohammad Ahmed
Date of Birth : 4 Jan 1979
Place of Birth : Doha - Qatar
Citizenship : Jordanian
E-Mail : moh_jada@yahoo.com
Web Site : <http://www.geocities.com/mohjada/>
Phone : Home: 00962 6 5715282
Mobile: 00962 7 95601805
P.O.Box : 925798 postal 11190 Al-Abdali – Amman – Jordan

Qualification and Degrees:

2004 **Master** in Computer Science from Amman Arab University for Graduating Studies.
[Master Paper: Image Compression Algorithms Comparison (program + paper)].
2002 **Bachelor** in Computer Science from Al-Isra University.
[Project: Network Communication: Server, Client, Voice, Video, Text, and File Transfer. With advanced user interface].

Work Experience:

1998-2004 Programming and supervision of some graduating projects: [Network Communication, Books Site (ASP), Web Dictionary (ASP), Text Editor, Logic Circuit Simulation, and Character recognition system].
1998-2004 Management of Daraldia Computers (Amman-Jordan).

Other Professional Activities:

- Network Setup and Maintenance.
- Computer hardware assembly, Setup, and Maintenance.
- Good design skills (using Adobe Photoshop).
- Good usage of all office programs (Word, Excel, Access, PowerPoint, and FrontPage).
- Fast Typing Skill (English- Arabic).

Programming and System Analysis Skills:

- Programming with Visual Basic (6 and .NET) (Professional).
 - Advanced API programming.
 - Multimedia Programming.
 - Network Socket Programming.
 - File Programming.
 - Advanced Algorithm Programming.
 - Advanced User Interface Programming.
 - Good OCX Objects Programming.
 - Advanced Database Programming (ADO).
- Programming with ASP .NET (Very Good)
- SQL, Relational Database Design and Implementation (Very Good).
- Programming with HTML (Very Good)
- Programming with Basic (Professional)
- Programming with Assembly (Good)
- Programming with Java (Good)
- Programming with C, C++ (Good)
- Fast Programming Skills Learning.
- Good system analysis skills and object oriented design and analysis skills (SE).
- Advanced usage of programming references (Internet and MSDN).

Publications:

- Al-Jada. Moh'd, (1998) "ALHADI in Using Computer".
- Al-Jada. Moh'd, (1998) "Your Guide to Use Internet".
- Al-Jada. Moh'd, (1999) "Windows 98".
- Al-Jada. Moh'd, (2000) "Excel 2000".
- Al-Jada. Moh'd, (2000) "Visual Basic".
- Al-Jada. Moh'd, (2003) "Your Guide to Use Computer".

For detailed information please reference to: <http://www.geocities.com/mohjada/books.htm>

Researches:

- 2000 How to Develop a Program That Read Tokens Using QBASIC.
- 2001 Database File Structure.
- 2002 How Token Bus Works.
- 2003 Operating Systems Deadlocks.
- 2004 A Comparison of Several Greatest Common Divisor (GCD) Algorithms.
- 2004 Image Compression Algorithms Comparison [master paper].

For detailed information please reference to: <http://www.geocities.com/mohjada/res.htm>

Programs:

Programmed over 55 programs packages: Simulation, Multimedia (Audio, Images, Network, Text, DB ...), Artificial Intelligence, Network, Game, System programming, files manipulation, security, OCX, 5 web sites, and more than 100 small programs.

For detailed information please reference to: <http://www.geocities.com/mohjada/progs.htm>

Languages:

- Arabic.
- English: perfectly literate
