

❖ WA MOTORKHANA NEWS ❖

JUNE 2000

Just a quick newsletter to accompany the Supplementary Regulations for Round 4. It is amazing that this years Championship is nearly at an end, how time flies when we're having fun!!!

Round 3, Albany

There was a good turnout of competitors despite the early confusion of whether we hold the event or not, due to the cancellation of the "Round the Houses".

The weather was very kind to us in the morning, but the black clouds rolled in after lunch which was a bit of a pity, still, most of us were prepared for the Albany weather and the event continued despite the sometimes heavy rain. Thanks must go to the timing officials who braved the sun in the morning and then the rain in the afternoon.

The GST

Unfortunately motorkhanas haven't quite escaped the evils of the GST. You will notice that GST has been added to the entry fees for Round 4. The Nissan Car Club is one of many CAMS clubs that have registered for GST so all their fees have got to have 10% GST applied.

I suppose we have to remember that the entry fees have remained static for over two years now; it's just unfortunate that the ATO is benefiting from this increase. Please note also that not all clubs are registered for GST so some events will not have GST applied.

Early Close of Entries

Please note that entries for Round 4 are closing the **Tuesday (25/07)** before the event. The early close of entries makes the organising club's life a little easier by giving them extra days to get the paperwork ready; but more importantly this time, the FPA can not give us 100% assurance that the venue will be available until two weeks before the event (one week after the Supp Regs are posted), so just in case we need to do a last minute change of venue we will have a list of competitors and contact details. Let's hope that won't happen.
