_____ How much lemonade did he sell on these days? _____
4. If you were Larry's boss, how could this graph help you run your lemonade business? _____

USING WHAT YOU HAVE LEARNED

A. Study the following line graph on world production of crude oil.

Place a check mark next to the correct answers to questions 1 to 9.

- The line graph shows
 - (a) how much crude oil was used throughout the world between 1960 and 1992.
 - (b) how much crude oil the United States exported to other countries between 1960 and 1992.
 - (c) how much crude oil was produced throughout the world between 1960 and 1992.
- Oil production is shown on the graph in
 - (a) millions of barrels per day.
 - (b) millions of barrels per year.
 - (c) billions of barrels per day.
- For the most part, the graph is divided into
 - (a) one year time periods.
 - (b) five year time periods.
 - (c) ten year time periods.
