Dear Elaine,

Please find enclosed the message with the requested details.

With best regards,

Sever

I thereby certify that Marcia Ricci Pinheiro, whilst under this institution's supervision in a Doctor of Philosophy course in Inequalities, Mathematics, gave tutorials in Maple from October to November of 2001, revised my book

○ *"Selected Topics on Hermite-Hadamard Inequalities and Applications", by S.S. Dragomir and C.E.M. Pearce, http://rgmia.vu.edu.au/monographs/hermite_hadamard.html,*

from July of 2001 to October of 2001, in which I have already acknowledged her work, and produced a paper on the applications of some inequalities which is yet going to be published on the volume "Inequality Theory & Applications, Volume II, Nova Science Publishers, USA, 2003" (to be printed) by Y.J. Cho, J.K. Kim and S.S. Dragomir (Eds), which has got a web version located at <http://rgmia.vu.edu.au/v5n2.html>.

Yours sincerely,

Professor Sever S. Dragomir,

Chair in Mathematical Inequalities,

○ *Editor in Chief, JIPAM*

School of Comm. & Informatics
