BODY OIL

Available in 3 healing varieties – grapeseed, jojoba & sweet almond

These nurturing, deeply penetrating body oils can be used on their own for massage, as an alternative to lotions, or in the bath. When combined with one of our essential oils, these body oils will “carry” the essential oil into the skin for a personalized aromatherapy experience.

ESSENTIAL OILS

Available in 30 healing varieties

Each variety of our therapeutic-grade essential oils has unique properties that can be used to freshen your home, uplift your spirit, and heal your body. Natural and easy to

use, these 100% pure botanical essential oils are useful directly on the skin and for inhalation or diffuser applications.

CANDLES

Soy Wax Candles

These rich and pleasing all-natural candles are created with pure essential oils and hand-poured vegetable wax from soybeans. Soy wax candles burn very cleanly without soot build-up. In a variety of fragrances and styles, these candles transform the energy in your home while illuminating and scenting your room.

Luxury Candles

Exquisite candles, unlike any you've ever experienced. Thousands of blossoms are concentrated to acquire the rare essential oil in our Roman Chamomile; mature hand-harvested bark infuses our extraordinary Indian Sandalwood. Elegant black packaging makes these candles a striking decorative statement or sumptuous gift.

Candle Tins

Now our natural soy wax candles in handsome 8-ounce tins are joined by charming 2-ounce tins – perfect for smaller rooms or when traveling. Both are hand-poured with vegetable wax from soybeans, a renewable resource. Scented with pure essential oils, these candles burn very cleanly without soot build-up.

PILLOWS/HERBAL MISTS

Wet Eye Pillow

A chamomile pillow, run under warm water, releases its gentle scent and healing properties when placed over irritated or puffy eyes. Laundry Pillow

Simply toss the unbleached muslin Laundry Pillow into your dryer with wet clothes to give your laundry (up to twenty loads) the delicate aroma of organic lavender flowers and the finest essential oil. The versatile Laundry Pillow also freshens your closets and drawers when used as a sachet.
