

O!! 'My future', you are in my hands

*Sun rises in the east and sets in the west
O!! Nature, I've been seeing this in my life
Of course till end of the tour on this earth*

*I do
I want to do
I follow to do
I followed by to do
O!! My future, you are in my hands
What I did today, may decide the way you to be*

*O!! Nature
I implore you to teach me the way bird's lives, to watch at my moments not at the time
or money
I implore you to teach me the way to be as sunlight, enlightened by myself and
surrounded
In my loved life I pay endless debt to thee for what I have been given to do*

*Still
Sun rises in the east and sets in the west*

*Thiru
