

Eight Solutions Analysis Table

	sodium chloride	sodium iodide	Sodium carbonate	sodium hydroxide	Copper (II) nitrate	lead (II) nitrate	iron (III) nitrate	silver nitrate
silver nitrate								
iron (III) nitrate								
lead (II) nitrate								
copper (ii) nitrate								
sodium hydroxide								
sodium carbonate								
sodium iodide								
sodium chloride								
Note: Sodium and nitrate compounds are soluble so in #1 the solid must be must be silver nitrate
