Cleary Alumni & Friends Center,
UW-La Crosse
.5 CEUs

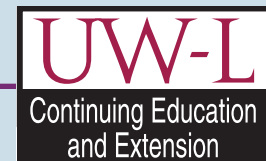

For Parents:

Supporting School Success

6:30-8 p.m., November 28, 2005
Port O' Call, Cartwright Center
UW-La Crosse

Educator, author and internationally-known speaker, Diane Heacox will share "teacher proven" ideas for differentiated instruction in your classroom as well as practical ideas for parents to support your child's school success!

La Crosse, Wis.

**DIANE G. HEACOX,
ED.D.**

is the author of "Up From Underachievement" and "Differentiating Instruction in the Regular Classroom: How to Reach and Teach All Learners." She has taught at both elementary and secondary school levels and has served as a gifted education teacher and administrator, as well as an instructional specialist in public education.

Diane is currently an associate professor of education at the College of St. Catherine in St. Paul, Minnesota and is also the director of the college's Honors Program. She continues to be an active consultant and professional development trainer to both public and private schools on a variety of topics related to teaching and learning. Diane also presents at numerous local, state, national and international conferences.

Diane holds a masters degree in curriculum and instruction and a doctorate in educational leadership from the University of St. Thomas in St. Paul. She was inducted into the University of St. Thomas's Education Hall of Fame for her contributions to the field of education.

For Educators:

*Differentiating Instruction in the Regular Classroom:
How to Reach and Teach All Learners*

How can teachers design different but "fair" learning activities in the regular classroom, evaluate differentiated activities and skillfully manage multiple activities in the classroom? Participants will be actively involved in designing differentiated activities for a variety of purposes and in creating learning activities to meet criteria that make differentiation "invisible" to students. We will "mine" ideas for differentiation from your current units and/or teacher editions. We will explore "teacher proven" ideas for managing flexible instructional groups and for evaluating equal but different tasks. The goals of the workshop are to:

- Develop an understanding of how differentiation will help ALL students succeed in learning.
- Identify the strategies of differentiation currently in practice in your classroom
- Develop ideas for a differentiated unit plan
- Explore practical, do-able strategies for creating better instructional "matches" for your students
- Increase your ability to manage and assess differentiated activities
- Identify particular strategies for differentiation necessary for gifted and talented students

9 a.m.-3 p.m., November 29, 2005

Cleary Alumni & Friends Center, UW-La Crosse

\$75, includes lunch and refreshments;

\$65, for 3 or more individuals from the same school district. *Registrations need to be mailed in the same envelope.*

For Parents:

Supporting School Success

How can parents and significant adults provide the encouragement and necessary support critical to their children's school success? We will explore characteristics of students who "play the school game" successfully as well as those who struggle and may in fact not be fulfilling their "promise" in school. Learn more about your child's preferred way to learn so that you can help them "unlock" more pleasure in learning as well as become more motivated to actively commit to excellence. Leave our session with practical ideas to support your child's school success.

6:30-8 p.m., November 28, 2005

Port O' Call, Cartwright Center

UW-La Crosse

\$10, includes refreshments
