

HerbaFresh™ Breath Freshener Capsules

Breath Confidence!

HerbaFresh capsules work from the inside-out to alleviate bad breath.

You're wearing your most alluring dinner dress, confidently "turned out" for an important dinner with a business associate or special friend. Or you're giving a presentation after a company dinner, dressed in your professional best.

The last thing you need to worry about is bad breath!

Herbalife's HerbaFresh Breath Freshener Capsules are formulated to work with the digestive system to eliminate the sources of bad breath naturally. These easily digestible soft gels attack offensive breath that has its source in the digestive tract. Simply take two or three capsules within 30 minutes after a meal and bad breath can be eliminated by a powerful herbal complex of all-natural oils—and it leaves your mouth tasting clean and fresh!

Packaged in a convenient purse-size container, HerbaFresh™ Breath Freshener Capsules can be used anytime, anywhere. Plus, the small round bottle is a secure package that won't open accidentally when it's carried in your bag.

Discussion Points

- **Natural herbs:** HerbaFresh™ Breath Freshener Capsules contain Sunflower and Parsley seed oil, a rich source of chlorophyll, nature's own purifier.
- **Odor reducing:** A sweet Indian spice called Cardamom is included to help neutralize harsh odors.
- **Sugar-free:** The capsules contain no sugar, preservatives, artificial flavors or colors.

Did You Know?

When many restaurants place fresh parsley sprigs on a plate of food, it's more than a garnishing touch. Though known for its breath-enhancing qualities, parsley is rarely consumed after a meal. HerbaFresh Breath Freshener Capsules have taken away the bitter taste, leaving its powerful capabilities intact.

Fast Facts
