Denise Faustman, MD, PhD, has spent the last decade researching a cure for type 1 diabetes. This work led her to discover a novel way to treat type 1 diabetes, accomplishing for the first time ever the permanent reversal of established diabetes in mice.

Dr. Faustman is expanding this promising research to human applications and will hopefully one day cure type 1 diabetes.

Dr. Faustman is the director of the Immunobiology Laboratory at Massachusetts General Hospital (MGH) and an associate professor of medicine at Harvard Medical School. Dr. Faustman became an independent investigator at MGH and Harvard Medical School in 1987. She completed her internship, residency, and fellowships in Internal Medicine and Endocrinology at MGH. She is also a member of the American Association for the Advancement of Science and serves as a frequent member of the Institute of Medicine.

Dr. Denise Faustman

Help the Faustman Lab Cure Diabetes!

The research being conducted by Dr. Denise Faustman at Massachusetts General Hospital aims to offer a chance for people living with type 1 Diabetes to move beyond managing their disease with insulin to actually reversing the condition.

The Faustman Lab is now conducting human clinical trials with Bacillus Calmette-Guerin (BCG), a generic drug that may help to remove the defective cells that cause type 1 Diabetes.

Most importantly, the goal of Dr. Faustman's clinical trials is to develop a cure for diabetes, not just manage it.

With your help, the goal of ending type 1 Diabetes can be achieved!

“This research will attempt to reverse established diabetes, rather than simply introduce new pumps or other types of new equipment or drugs to delay the onset of diabetic complications. That is a cause for new hope and a new vision for people who already have diabetes.”

-Dr. Denise Faustman

Drive to Cure Diabetes

September 10, 2009

The Day's Schedule

- * Registration and Breakfast.....8:00 AM
- * Shotgun Start.....9:30 AM
- * Buffet Lunch and Raffle.....3:00 PM

Golf Format.....Scramble

Mulligans.....\$10 each

Join us for lunch and raffle.....\$35

Raffle Tickets.....\$5 each/ 5 for \$20

Please visit our web site:
