

JOURNAL OF MAGNETISM AND MAGNETIC MATERIALS

(International Workshop on Nanomagnetism, La Habana, Cuba, November 15-19, 2004)

Instructions to Authors: Special Issues

Submission of papers

Manuscripts (one original + two copies), should be sent to the Guest Editor. Although electronic submission is normally welcomed for regular issues, **Authors of papers submitted to special issues/proceedings of this journal are asked not to use this means of submission.**

Submission of a manuscript implies it is not being simultaneously considered for publication elsewhere and that the Authors have obtained the necessary authority for publication.

Manuscript preparation

All manuscripts should be written in good English. The paper copies of the text should be prepared with double line spacing and wide margins, on numbered sheets.

Structure: Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, PACS codes and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables.

Corresponding author: The name, complete postal address, telephone and fax numbers and the **e-mail address** of the corresponding author should be given on the first page of the manuscript.

PACS codes/keywords: Please supply one or more relevant PACS-2003 classification codes and about 5 keywords of your own choice for indexing purposes.

References: References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to recent issues for examples.

Authors in Japan please note: upon request, Elsevier Japan will provide a list of people who can check and improve the English of an article before submission. Contact our Tokyo office: Elsevier Japan K.K., Editorial Service, 4F Higashi-Azabu, 1 Chome Bldg, 1-9-15 Azabu, Minato-ku, Tokyo 106-0044, Japan; tel.: 03-5561-5032; fax: 03-5561-5045; e-mail: jp.info@elsevier.com.

Copyright transfer

In the course of the production process you will be asked to transfer the copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Electronic files

The Publisher heartily welcomes the receipt of an electronic version of your accepted manuscript. Please ensure that the Guest Editor is supplied with your revised electronic file. (When e-mailing a non-ASCII word-processor file, you should send it as an e-mail attachment). The name and version of the word processing program and the type of operating system should always be indicated. Please note that no deviations from the version accepted by the Guest Editor are permissible without the prior and explicit

approval by the Guest Editor. Such changes should be clearly indicated on an accompanying printout of the file.

Preparation of illustrations

Electronic illustrations

Submitting your artwork in an electronic format helps us to produce your work to the best possible standards, ensuring accuracy, clarity and a high level of detail.

General points

- Always supply high-quality printouts of your artwork, in case conversion of the electronic artwork is problematic.
- Make sure you use uniform lettering and sizing of your original artwork.
- Save text in illustrations as 'graphics' or enclose the font.
- Only use the following fonts in your illustrations: Arial, Courier, Helvetica, Times, Symbol.
- Number the illustrations according to their sequence in the text.
- Use a logical naming convention for your artwork files, and supply a separate listing of the files and the software used.
- Provide all illustrations as separate files and as hardcopy printouts on separate sheets.
- Provide captions to illustrations separately.
- Produce images near to the desired size of the printed version.

Files can be stored on 3½ inch diskette, ZIP-disk or CD (either MS-DOS or Macintosh). This journal offers electronic submission services and graphic files can be uploaded via the Author Gateway page of this journal via <http://authors.elsevier.com>.

A detailed guide on electronic artwork is available on our website: <http://authors.elsevier.com/artwork>

You are urged to visit this site; some excerpts from the detailed information are given here.

Formats

Regardless of the application used, when your electronic artwork is finalised, please 'save as' or convert the images to one of the following formats (note the resolution requirements for line drawings, halftones, and line/halftone combinations given below):

- | | |
|------------------|--|
| EPS: | Vector drawings. Embed the font or save the text as 'graphics'. |
| TIFF: | Colour or greyscale photographs (halftones): always use a minimum of 300 dpi. |
| TIFF: | Bitmapped line drawings: use a minimum of 1000 dpi. |
| TIFF: | Combinations bitmapped line/half-tone (colour or greyscale): a minimum of 500 dpi is required. |
| DOC, XLS or PPT: | If your electronic artwork is created in any of these Microsoft Office applications please supply 'as is'. |

Please do not:

- Supply embedded graphics in your word processor (spreadsheet, presentation) document;
- Supply files that are optimised for screen use (like GIF, BMP, PICT, WPG); the resolution is too low;
- Supply files that are too low in resolution;
- Submit graphics that are disproportionately large for the content.

Non-electronic illustrations

Provide all illustrations as high-quality printouts, suitable for reproduction (which may include reduction) without retouching. Number illustrations consecutively in the order in which they are referred to in the text. They should accompany the manuscript, but should not be included within the text. Clearly mark all illustrations on the back (or – in case of line drawings – on the lower front side) with the figure number and the author's name and, in cases of ambiguity, the correct orientation.

Mark the appropriate position of a figure in the article.

Captions

Ensure that each illustration has a caption. Supply captions on a separate sheet, not attached to the figure. A caption should comprise a brief title (**not** on the figure itself) and a description of the illustration. Keep text in the illustrations themselves to a minimum but explain all symbols and abbreviations used.

Line drawings

Supply high-quality printouts on white paper produced with black ink. The lettering and symbols, as well as other details, should have proportionate dimensions, so as not to become illegible or unclear after possible reduction; in general, the figures should be designed for a reduction factor of two to three. The degree of reduction will be determined by the Publisher. Illustrations will not be enlarged. Consider the page format of the journal when designing the illustrations.

Photocopies are not suitable for reproduction. Do not use any type of shading on computer-generated illustrations.

Photographs (halftones)

Please supply original photographs for reproduction, printed on glossy paper, very sharp and with good contrast. Remove non-essential areas of a photograph. Do not mount photographs unless they form part of a composite figure. Where necessary, insert a scale bar in the illustration (not below it), as opposed to giving a magnification factor in the legend.

Note that photocopies of photographs are not acceptable.

Colour illustrations

Submit colour illustrations as original photographs, high-quality computer prints or transparencies, close to the size expected in publication, or as 35 mm slides. Please make sure that artwork files are in an acceptable format (TIFF, EPS or MS Office files) and with the correct resolution. Polaroid colour prints are *not* suitable. If, together with your accepted article, you submit usable colour figures then Elsevier will ensure, at no additional charge, that these figures will appear in colour on the web (e.g., ScienceDirect and other sites) regardless of whether or not these illustrations are reproduced in colour in the printed version. Please indicate your preference for colour on the web (free of charge) or in print and on the web (charged) when submitting your article. For colour reproduction in print, you will receive information regarding the costs from Elsevier after receipt of your accepted article. For further information on the preparation of electronic artwork, please see <http://authors.elsevier.com/artwork>.

Please note: because of technical complications which can arise by converting colour figures to 'grey scale' (for the printed version should you not opt for colour in print) please submit in addition usable black and white version of all the colour illustrations.

After acceptance

You will be notified by the Guest Editor of the acceptance of your article and invited to supply an electronic version of the accepted text, if this is not already available.

Proofs

When your manuscript is received by the Publisher, it is considered to be in its final form. Proofs are not to be regarded as 'drafts'.

One set of page proofs in PDF format will be sent by e-mail to the corresponding author, to be checked for typesetting/editing. No changes in, or additions to, the accepted (and subsequently edited) manuscript will be allowed at this stage. Proofreading is solely your responsibility.

A form with queries from the Copy Editor may accompany your proofs. Please answer all queries and make any corrections or additions required.

The Publisher reserves the right to proceed with publication if corrections are not communicated.

Return corrections within 2 days of receipt of the proofs. Should there be no corrections, please confirm this.

Elsevier will do everything possible to get your article corrected and published as quickly and accurately as possible. In order to do this we need your help. When you receive the (PDF) proof of your article for correction, it is important to ensure that all of your corrections are sent back to us in one communication. Subsequent corrections will not be possible, so please ensure your first sending is complete. Note that this does not mean you have any less time to make your corrections, just that only one set of corrections will be accepted.

Author benefits

No page charges. Publishing in the Journal of Magnetism and Magnetic Materials is free.

Free offprints. The corresponding author will receive 25 offprints free of charge. An offprint order form will be supplied by the Publisher for ordering any additional paid offprints.

Discount. Contributors to Elsevier journals are entitled to a 30% discount on all Elsevier books.

Author enquiries

For enquiries relating to the submission of articles please visit Elsevier's Author Gateway at <http://authors.elsevier.com>. The Author Gateway also provides the facility to track accepted articles and set up e-mail alerts to inform you of when an article's status has changed, as well as detailed artwork guidelines, copyright information, frequently asked questions and more.
