

Natural Touch of Ana Doriza Navia

Born and raised in the Philippines. My love for massage began when I was 10 years old by giving my grandmother nightly rubs and massages. My years in massage work have also taken me around the globe. Spending three years at the palace of King Abdul Aziz bin Abdul Rahman Al-Saud in Saudi Arabia where I gave daily massages to the Princess. Standing 4 feet 11 inches, my work out schedule keeps my endurance high and my hands quite strong. Working professionally for the past 19 years has developed and strengthened my unique techniques.

When I moved to California I became a foundation member of the non-profit - "Answering the Cry of the Poor". Each year I hold a fundraising marathon massage event. 100% of all fees and tips collected are donated to this organization that reaches out to the poorest of the poor in Third World nations. "God has given me a gift of this kind of talent and I want to use it to help the unfortunate people of the Philippines."
