

Shortbread Cookie Tin Ovens

Thanks very much to Judi Wheatley, who e-mailed me this great idea!

You can use a shortbread cookie tin for small ovens at camp. Get a cake cooling rack that fits inside. Put rack inside - and place food items on the rack, for example, mini pizzas. Cover the cookie tin and place over a heat source to bake the food inside. You could also make a bag for it and attach to your backpack, and use it over and over again! This oven is good for making cupcakes, mini pies, and other small items.
