

Seeking Financial Freedom,

We all need financial freedom. We all seek financial independence. I am not in the business of convincing, selling, or persuasion but would like to open your eyes and get you into the world of reality. My name is Rajeshwar Prasad, and I live in NSW, Australia.

If you care about your financial future you absolutely **MUST** take some time to read what I have to say - and read it carefully. If you are really serious about being wealthy and want to live the type of lifestyle that most people only dream of, please read on and this article may change your destiny.

Fact 1, you need to understand that...

“Your JOB Will Never Make You Financially Independent!”

My true purpose here is to identify what financial independence really means.

I migrated to Australia in 1994 and I began to really study money and wealth creation programs attending various seminars in wealth creation. I came to the blunt truth that there is **NO RESIDUAL INCOME** in working my life out in a permanent job – *a job that required continuous WORK and effort to get paid!*

Like most jobs, my work did not provide me with a **REAL LEVERAGE**, and any sustainable **RESIDUAL INCOME!**

I must make my point very Clear that I am NOT saying that you should quit your job today and get started into what I am suggesting.

What I am emphasizing on is if you wanted to retire in comfort someday, you must be informed and be educated about this subject of Wealth Creation, financial independence and residual income that may change your future course of your life.

There are two main types of income streams:

1) Earned Income - This is You working to get paid, then have to work again to be paid again on weekly, fortnightly or monthly. No matter who we are , doctors, lawyers, factory workers, IT professionals, loan officers, bartenders, Engineers, teachers, stock brokers, airline pilots, CEO's - where we work for money...we are *trading time for dollars*. Your income stops if you lose your job or are retrenched or made redundant. In current times no jobs are secure.

Earned income has 3 major drawbacks:

A) We are heavily taxed on our income.

B) We personally have to work for it so it takes up our valuable time.

C) There is no real leverage - the only way to make more money is to work harder and longer hours – dependence on availability of overtimes etc.

2) Residual Income - Residual income is much different. Once established residual income keeps flowing week after week, year after year... regardless of whether you are still working or not. Even after Elvis Presely's death his family continues to get paid millions of dollars today for something he did many years ago in royalties. This is a very good example of residual income.

Property investments is another example of residual income where income from investment properties earn you the rents every month regardless of what you do everyday.

The principal behind financial independence and enjoying great lifestyle is RESIDUAL INCOME! What Financial independence means is that you don't have to work hard anymore and can enjoy a life of comfort and security.

Residual income streams, once created gives one **Plenty Of Free Time and obviously a consistent Cash Flow!**

The whole truth is that there are very few people in a position to stop working completely today and live in complete comfort right now. And those that are probably who have made their money would be from some key investment, or some form of business ownership... NOT from a JOB!

And by the way - the vast majority of people that you THINK are wealthy because they live in a big house, drive fancy cars, wear nice clothes, and go out all the time ARE NOT truly RICH people!

Most of them are in massive big DEBTs! They would be living on paycheck to paycheck, barely able to meet payments on their house, cars, and credit cards.

Most are probably only a couple months away from major financial disaster if they lost their job or got hurt and couldn't work. **THINGS ARE USUALLY NOT AS THEY APPEAR ON THE SURFACE!**

With current interest rate hikes a lot are losing their homes.

NETWORK MARKETING!

I was surprised, and of course curious. I had never been involved in Network Marketing, and didn't really know very much about it. I knew that there were some people and my close associates and friends making a ton of money at it, but it was kind of a mysterious thing to me.

What amazed me the most was that each of these associates were helping each other to develop the business and succeed. What they individually said was “You can only succeed by helping others succeed - it is the ultimate win-win situation for a network marketing business.

My Discovery:

- Network Marketing is a big time industry. There are currently over 27 million people involved and that Network marketing is a multi – Billion Dollar industry..
- **There is a great potential to earn HUGE streams of RESIDUAL income.**
- Lawyers, doctors, dentists, university professors, stockbrokers, company managers, professional athletes, real estate developers, and business owners, and people from all different walks of life are joining Network Marketing - in order to create RESIDUAL income and the personal freedom it can provide.
- There are great **TAX ADVANTAGES associated** with a home-based Network Marketing business than any other business .

I have no employees, no nagging clients, minimal overhead, and work out of my home.

So What Does This Mean For YOU?

Frankly, if you are looking for a better way - a way to achieve the lifestyle and the freedom that you have dreaming of this Lottery business **could mean everything!**

You all buy lottery tickets spending considerable amount of money, however by becoming a mere Classic Member of TCS2000 you have the advantage of entering into 3 X weekly draws at a mere cost of \$13.75.

Classic Membership

Your Retirement reality

When do you want to retire? In 2 years - 5 years - 10 years? And how much money do you need to retire in comfortably?

If you needed \$5,000 monthly to retire comfortably, you'll need to have **One Million Dollars** invested to generate \$5,000 per month in residual income - not taking inflation into consideration.

So What Is Your Plan To Accumulate This Money???

This is a business plan that is proven, tested, has worked for tens of thousands of Australians and other people internationally than *it can work for you too!*

And remember, **any plan that requires you to keep working in order to be paid is NOT A GOOD PLAN!** A good plan provides **residual income**. *Imagine large amounts of money being deposited into your account a reality many are currently enjoying.*

This Is A Proven, Tested Business and a winning solution That Works!

Please note that this is NOT a get rich quick scheme. It does take some effort and action on your part. But it IS something that if worked consistently, even part time, can make you financially free in 2 - 5 years. **If you are AMBITIOUS**, are **teachable**, can **think out of the box**, and have a **strong DESIRE to make money** - and are **willing to** invest at least few hours per week than this wealth creating mechanism is for you.
