Project Record Sheet

Project Name: Vanity Scarf   Date: November, 1999
        repeat these motifs as indicated in design collection   Lou Caldwell

Description of project: Blue checked scarf for Mother's
vanity in bedroom. Using the same warp to create a plain
weave scarf for chest in same room.

Design Source: Handwoven Design Collection 11 p 13,15
except used different yarn so calculations changed.
Yarns used: 10/2 Durene V-7 Bleach (White0
              10/2 Astra #15 Navy
              102 pearl CottonCF0102P (medium)
              10/2 105 (light blue)

Summary	
Pattern	bronson lace
e.p.i.	24
reed	12 d
warp length	3.49 **yd**
width in reed	15 in
Finished length	in
Finished width	in

Warp calculations:

Finished length:	44	Finished width:	13
Shrinkage (15%)	6.6	Shrinkage (15%)	1.95
hems, etc.	4	hems, etc.	
loom waste (36 inches)	36		
sample (10 inches)	12		
Total length	103	**Total width**	15
Second project	23		
	126	inches	

Warp ends per inch   24   x total width in reed   15.1
equals the number of total warp threads to be wound   362

Warp length (yards) to be wound   3.49 x warp ends to be
wound   362   will equal   1263   yards of warp material
needed for the project. To be safe, for a balanced weave allow the
same amount for weft.

Note: Formula above gives total warp for project. Use same formula
for each color:

Color	white	lightblue	medium blue	navy
Ends				
Length				
Total				

Weaving notes: Had a heck of a time translating pattern to new threads and size.
Note: Did not beat at 24ppi so used 9 repeats of pattern instead of 12 planned.
Length was appropriate with 9. Have not yet wet finished so don't know final size.

Sewing and finishing notes:

Annotations (top to bottom):
-] This is plain weave border,
- Warp skips, white weft
- Warp skips, colored weft
- Weft skips
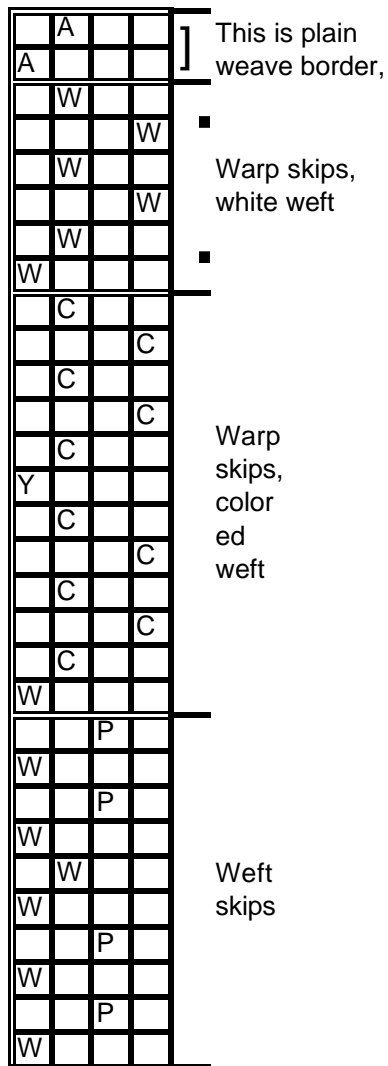

Treadling order:
Plain weave border

White	32 picks (begin with left treadle)
Copen	5 picks
Yale	1 pick
Copen	5 picks

Pattern repeats

Warp skips (white weft)	5x = 30 pic ------|	
Weft skips (white and peacock)	1x = 10 pic		repeat 9 times
Warp skips (white weft)	5x = 30 pic		
Warp skips (colored copen/yale)	1x = 12 pic ------|	
Warp skips (white weft)	5x = 30 picks	
Weft skips (white and peacock)	1x = 10 picks	
Warp skips (white weft)	5x = 30 picks	
Plain weave border in reverse	= 43 picks
