EDUCATION

- **(2007–Present)** Postdoctoral Fellow, Lawrence Berkeley National Laboratory.
- **(2004–2007)** PhD in Quantum Electronics, School of Electronic and Electrical Engineering, University of Leeds, Leeds, UK.
Thesis: Physics of intraband quantum dot optoelectronic devices.
- **(1999–2003)** BSc in Physics, University of Belgrade, Belgrade, Serbia, Faculty of Physics, section Theoretical and Experimental Physics, GPA 10.0 (out of 10) – Valedictorian.
Thesis: Determination of ground state of H_2^+ molecule ion using diffusion Monte Carlo method.
- **(1999–2004)** BSc in Electrical Engineering, University of Belgrade, Belgrade, Serbia, Faculty of Electrical Engineering, section Physical Electronics – Optoelectronics and Laser Engineering, GPA 9.8 (out of 10) – among top 2%.
Thesis: Optically pumped terahertz laser based on intersubband transitions in a GaN/AlGaN double quantum well.

RESEARCH EXPERIENCE

- Plane-wave calculations of the electronic structure of quantum dots within the framework of $k \cdot p$ model.
- Exploiting the symmetry of the quantum dot system in electronic structure calculations.
- Configuration interaction method for few electron states in quantum dots.
- Strain in nanostructures - continuum mechanical and atomistic models.
- Empirical pseudopotential modelling of the electronic structure of semiconductors.
- Nonequilibrium Green's function theory (in the self-consistent Born approximation) of transport and interaction with electromagnetic radiation in low dimensional semiconductor structures.
- Boltzmann equation based transport in cascades of semiconductor quantum dots or wells – modelling of different interaction mechanisms, such as electron phonon, ionized impurity, interface roughness, alloy disorder.
- Development of computational software (in Fortran) implementing the above techniques and its applications to modelling and design of optoelectronic devices, such as quantum dot infrared photodetectors, quantum dots-in-a-well detectors, optically pumped intraband lasers, quantum cascade lasers.

HONORS AND AWARDS

- at postgraduate level:
 - **(2006)** IEEE Lasers and Electrooptics Society Graduate Student Fellowship.
 - **(2005/2006 and 2006/2007)** IEE Leslie H. Paddle Fellowship for *postgraduate research which will further the art, science or practice of electronic or radio engineering*.
- at undergraduate level:
 - **(2003/2004)** *Student of generation* award for the best student in generation at the Faculty of Physics.
 - **(2002 and 2003)** Awards for the best student at the Department of Physical Electronics at the Faculty of Electrical Engineering.

- **(2001/2002 and 2002/2003)** Awards for the best student at the Faculty of Physics.
- **(February 2003)** Serbian Royal Family Karadjordjević Award for one of 100 best university students in Serbia, Montenegro and Republic of Srpska.
- **(September 2002)** Royal Norwegian Government Award for one of 500 best students in Serbia.

- at high school level

- **(1996-1999)** Gold medal at 30th International Physics Olympiad (Padua, Italy, July 1999) and numerous awards at Republic and Federal competitions in physics and mathematics.

SCHOLARSHIPS

- **(2004-Present)** Overseas Research Students (ORS) award, University of Leeds Tetley-Lupton Award and the Maintenance grant from the School of Electronic and Electrical Engineering which funded my PhD studies.
- **(1999-2004)** Ministry of Science and Technology, Government of Republic of Serbia.
- **(1996-1999)** Republic Foundation for Development of Scientific and Art Youth.

EMPLOYMENT

- **(2005-Present)** Lab demonstrator and Exam chief invigilator, School of Electronic and Electrical Engineering, University of Leeds, Leeds, UK.
- **(2005/2006)** Subwarden at Montague Burton Residences.
- **(2004-2006)** Member of the editorial board of *Young physicist* – journal for elementary and high school physics students published by Serbian Physics Society.
- **(1999-2004)** Mathematical High School, Belgrade – preparing students for high school competitions in physics.
- **(Summer 2003)** Summer student program at DESY/HASYLAB (Deutsches Elektronen Synchrotron), Hamburg, Germany.
- **(2000-2004)** Petnica Science Center – Junior Associate at courses of Applied Physics and Electronics.

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

- Referee for Physical Review B, Physical Review Letters (APS), Journal of Applied Physics, Applied Physics Letters (AIP), IEEE Journal of Selected Topics in Quantum Electronics, Electronics Letters (IEE), Nanotechnology, Semiconductor Science and Technology, Journal of Physics: Condensed Matter, New Journal of Physics, and Journal of Physics D: Applied Physics (IoP).
- Member of IoP, IEEE-LEOS, and IEE.

COLLABORATION WITH OTHER INSTITUTIONS

- **(August 2006)** a visit to Computational Materials Science Group, CCLRC Daresbury Laboratory, Warrington, UK.
- **(August-September 2005)** a visit to Electronic Materials Engineering Department, Research School of Physical Sciences and Engineering, The Australian National University, Canberra.
- **(2005-2007)** supervisor of two Diploma thesis at the Faculty of Electrical Engineering, University of Belgrade.

LANGUAGES

- Serbian – excellent (mother tongue).
- English – excellent.
- French – good.
