

Troll, Stone

(BL: RAN)

Type: Mystical Creature

Q/M Ratio 3:1

Armour: 2 points natural Stoneskin.

Attacks: Any melee club, mace or hammer, and rocks.

Abilities:

- 1) Immunities as per a Barbarian.
- 2) Weapons used count as Red due to strength (including thrown rocks!).
- 3) Immune to all Fear-based attacks.
- 4) Petrify will heal 1 point of Stoneskin on 1 location.

Vulnerabilities:

1) The blinding light of lightning-based attacks will return Trolls to the stone from which they were made. Lightning Bolt and Call Lightning affect a Troll as Petrify would affect anyone else.

Garb: Crude clothing, fur/skin loincloth. Grey make-up, tusk-like fangs.

Description:

Trolls are as tough and stupid as stone. Their exact origin is clouded, although some say they are related to giants (but I wouldn't suggest that to a giant's face...). Trolls live in order to eat and play. Eating means fresh meat - raw or cooked - and play means killing and pillaging. Trolls are huge (10-12 ft./650-850 Lbs.) and immensely strong, with thick bodies and limbs.
