

# **The Gorilla is Back!**

---

## **Wal-Mart is planning on building in the Town of Gilbert**

**Current plans include constructing a 200,000 square foot Wal-Mart Supercenter** next door to our town's municipal buildings at the corner of Warner and Gilbert Roads.

This is a bad idea, and will have a significant negative impact on the physical and cultural landscape of our community should Wal-Mart succeed with their plan.

Gilbert must respond to this super-store expansion by a large corporation that does not value our interests as a community. The globalization of Wal-Mart may or may not be a good idea for our country and our world, but placing one of these giant super-stores as the gateway to our community, in the core of our most cherished and important landscape would be a terrible mistake and must not happen.

***Please help stop the 900lb Gorilla from invading our town!***

For more information on Wal-Mart expansion and other Big-Box Sprawl in our town and around the world, and to learn how you can help, please visit the website below.
