

Morris A. Bradley was born in Wellington, New Zealand, on 11 March, 1927 at 11:15 p.m. He died on 23 August, 1991 at 10 am. In the last years of his life he wrote copiously, by dictation, and much of this by spiritual inspiration. He was aware that those left behind would need to decide for themselves the validity of his writings, and that time would be the greatest decider.

These are his own notes to summarize his work.

50 Years of MeanderingMorris A Bradley.

Date of Birth: 11/03/1927, Jewish-Irish extract, born natural clairvoyant, aware of this from about the age of five. Intense interest in music from this age. Tests from specialists revealed that I saw things that other people do not see in relation to energy flow from plants, trees and people. Soon learned to recognize sickness vibrations.

1940. Interest in radio construction and music, educated at technical college, specialized in electro-magnetism, biochemistry, biology, electrical engineering and physics. First job was with Rubber Research Foundation, a forerunner of Dunlop's, NZ. Worked as industrial chemist, adapting process development work for New Zealand conditions. Next job..Post and Telegraph Department, communications division. Deepened interest in musical studies, started to learn astrology, carried on with music, joined Spiritualist movement on a research basis. Part-time hobby ..geology and working in old gold fields, searching for gemstones, etc.. Studied White Magic, investigated the Rosicrucians and many similar groups such as the Theosophical Society.

1950.Natural gift for dowsing discovered. Used this gift for map dowsing, finding lost people, cats, dogs, boats and aircraft, moved into dowsing for diseases, physical and mental, and the next 12 years were absorbed in investigating a belief system of the different types of Christian churches. By now I was a part time professional musician, part time professional astrologer and worked with radio and electronics moving into the field of television, being one of the first in my area in 1960 to open up a television shop and service department. Studied Osteopathy under the late Dr Buckner, used this to help sports teams, etc. Became interested in short wave therapy treatment, built electro-magnetic radiation units and faradic units, probing into the problems of microwave saturation, radio-frequency poisoning. Worked in transmission of radio broadcasting, an RT and WT operator. Took university extension courses, Applied Psychology 1 and 2. Started into herbalism and mineral therapy. Started astrological and dowsing classes. Founded Spiritual Healing groups. Left the Spiritualist movement, sadly disillusioned by the bogus operators. This carried me on to 1970.

In 1972 remarried, second wife a natural healer, clairvoyant and telepath. Founded Radionic Research Associates, picked out talented people...dietitians, psychologists, electrical engineers, computer operators, homoeopaths, and many reputable clairvoyants. For 7 years ran a free clinic here with 15 trained volunteers, had more than 10,000 patients pass through this clinic. Practised all the healing arts, including osteopathy, amassed a great deal of information. Formed Spectral Light Products, then Holistic Health Services, and feel that we now (10/12/89) have the biggest health analysis service in Australasia producing more than 3000 reports a year, covering virtually every known disease and illness.

We have developed and built over 30 different models of radionic equipment and have at least another 5 or 6 units which are quite revolutionary in construction at this point in time.. We have also done extensive work in the field of geomantic and geopathic stress plus the effect of planetary vibrations and their influence on nations and people. Extensive knowledge has been acquired in the fields of electro-acupuncture, maori medicine, maori ritual magic, touch-tone therapy and pyramid energies. We feel that our attitude towards health is genuinely holistic, and this is why we have such good results with our healing programmes.

I started going blind 15 years ago and have been totally blind for the last 5 years. (from 1985)
