

BODY POLARITY AND THE ENDOCRINE GLAND CENTRES.

Two currents run up and down spinal column (Kundalini force)

Centre line divides the field polarity so that the right hand side is positive electric and the left hand side is negative magnetic.

Note. Acid part of body is muscle action.

Akali part is the blood, therefore the acid-akalinity balance in the body is vital.

Acidic side Alkaline side.

+ Pos. - NEG

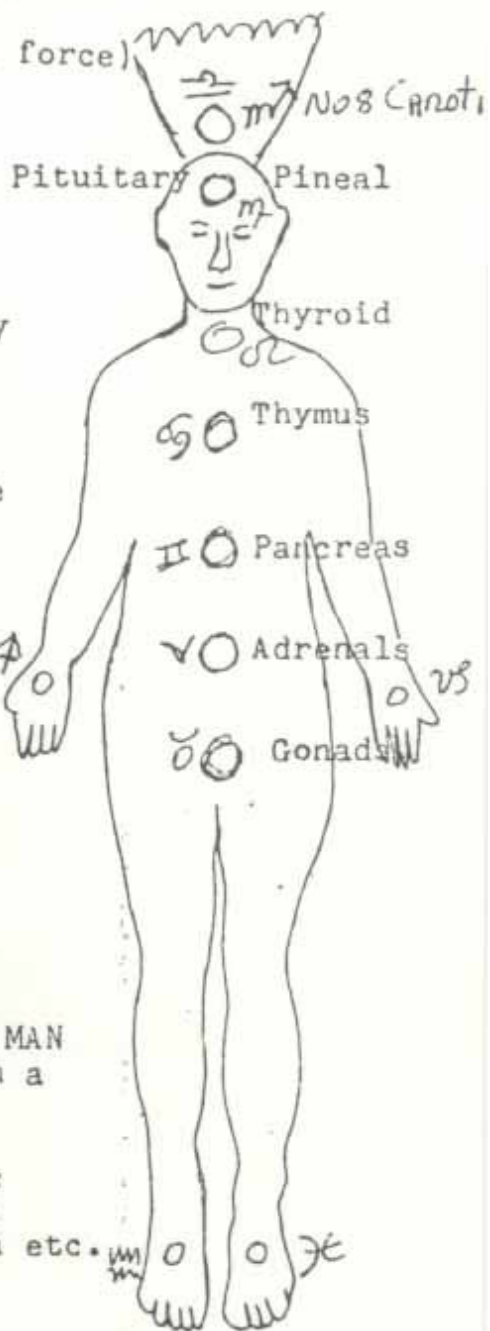

Line of demarkation for the body fluids.

ZODIAC.

This represents the 12 ages of MAN of 7 year periods. 84 years with a new phase developing each time there is a Saturn transit.

Each sign has a characteristic such as Aries; pioneer, Gemini; communication, Leo; ostentation etc.

The body is a "battery" and a condenser and must be electrically polarised correctly. The fluids of the top half of the body can be indepent in their polarity from the bottom half, this is noticeable in certain diseases or illnesses.

The endocrine glands seem to open naturally about every 7 years, The etheric is first from the Gonads, ne the adrenals and so on, thus we get growth of the mental, emotional, causal, physical, and spiritual parts of MAN. From the 45th year of age the Pineal and pituatry should be bolstering the Spiritual factors and opening the 3rd "eye" where or starts to give serious considerati of ones destiny.

NOTE. Continual nutritional imbalance or deficiencies cause mineral metabol failure, which when combined with bad "body polarisation" and bad acid alkali balance allow diseases and sicknesses to take hold in the human bod. The detection of a malfunctioning BHAKRA centre aids in the psychic diagnosing of specific problems related to that centre...
