

CE Day – Summer Aloha

24th August 2001 was like any other day, except that the department of Civil Engineering was celebrating CE day. It was the finale to an entire month of events which was organized by CE club for the students and staff of CE department.

This was the first time CE club was organizing such a big scale project that lasted a month and it was a bold step indeed. The theme for this month long event was 'Summer Aloha'. In line with this theme, there were activities ranging from soccer matches to site visits as well as the grand finale of CE day.

It was indeed a day worth celebrating. Although CE day does not hold any historical significance in the sense that it wasn't the day CE club or the department was formed, neither was it to commemorate some special date. CE day is the time where all students and staff of CE department take half a day off their hectic schedules and get together to have an afternoon of fun. This allowed greater interaction among the staff members as well as the student body to build a stronger CE family spirit and to continue making the CE department proud.

The day was filled with a very exciting programme. The event kicked off with a performance by the staff team followed by several song items from the student body. Several games were also played in the afternoon where many attractive prizes were also given away.

The highlight of the day was the handing over of the portfolios by the 3rd MC to the new 4th MC. It was indeed a solemn moment as the various representatives for the different portfolios were introduced to the rest of CE department. As the new MC took over their portfolios, there was wide support in the form of the applause heard from the floor.

After the mildly tensed moment, it was the part that everyone enjoyed the most – the Food. There was enough food to go many times around and it was an added incentive to the day's events.

Kudos to the 3rd MC for organizing such a successful event.

On this note, we would like to thank all sponsors who have contributed in one way or another as well as everybody else who attended that day. It means a lot to the organizers when they see a crowd. It is an indication of the success of the event. For those of you out there who missed CE day this year, make sure you attend the one next year because it will only get better and better every year.
