

Pierre Gaudet & Dr. Anne Bodak

Pierre Gaudet & Dr. Anne Bodak

■ Time to Rank

6 years

■ Personal History

Both of us worked as sport science consultants with over twenty Canadian Olympic and professional teams. Anne is a Doctor of Chiropractic and Pierre co-founded one of the most active sport science centers in Canada.

■ Why We Joined Nikken

We were not looking for a career change at the time, as we were excited about what we were already doing. We were actually looking for a home based business as a way to save on taxes. However, following great product results, we could not deny the opportunity in front of us. We know we are having a greater impact on more people through these products and this business than we ever have.

■ Advice to Distributors

Know your “why” for doing this, and it will drive your will to grow and learn. It will also fuel you to do the work necessary to achieve the goals you have set for yourself. And above all else, enjoy the journey.

■ What We See for the Future

We believe that the future will be as bright as the value and service will deliver to people. We see the future to be bright as the sun with Nikken. The combination of the right company, the right product, the right timing, and the right purpose will create opportunities for people to fulfill their dreams, as we have never seen before. An opportunity of this magnitude may never happen again in our lifetime.
