

Royal Diamond Profile

Dr. Roger & Judy Boger

Dr. Roger & Judy Boger

■ Time to Rank

6 years, 6 months

■ Personal History

Judy was a registered nurse at a hospital in Dayton, Ohio. She is most proud of her two grown sons, one a chemical engineer, the other in medical school and the U.S. Army. Roger is a Fellow at the Albert Einstein Hospital and the National Academy of Dentistry. He is active in real estate, investment, and is a certified professional ski instructor.

■ Why We Joined Nikken

To provide others with a vehicle for their health, personal freedom and financial freedom. We love the products, the business and seeing people more. Become more successful, competent, healthier, relaxed and full of life.

■ Advice to Distributors

Slow or fast, it does not matter. The only way to fail is to quit. Listen to people and hear their challenges. Then, after you have given them that courtesy, offer them a new life with the Nikken promise of balance in all areas of their life through the philosophy of the five pillars of health.

■ What We See for the Future

An ever-increasing demand for our products will allow all Nikken distributors to make this a healthier world in all five pillars. An opportunity to serve our fellow man and to enjoy sharing Mr. Masuda's vision of humans being more.
