

**Gary Schones has completed the (very heavy!) pier**

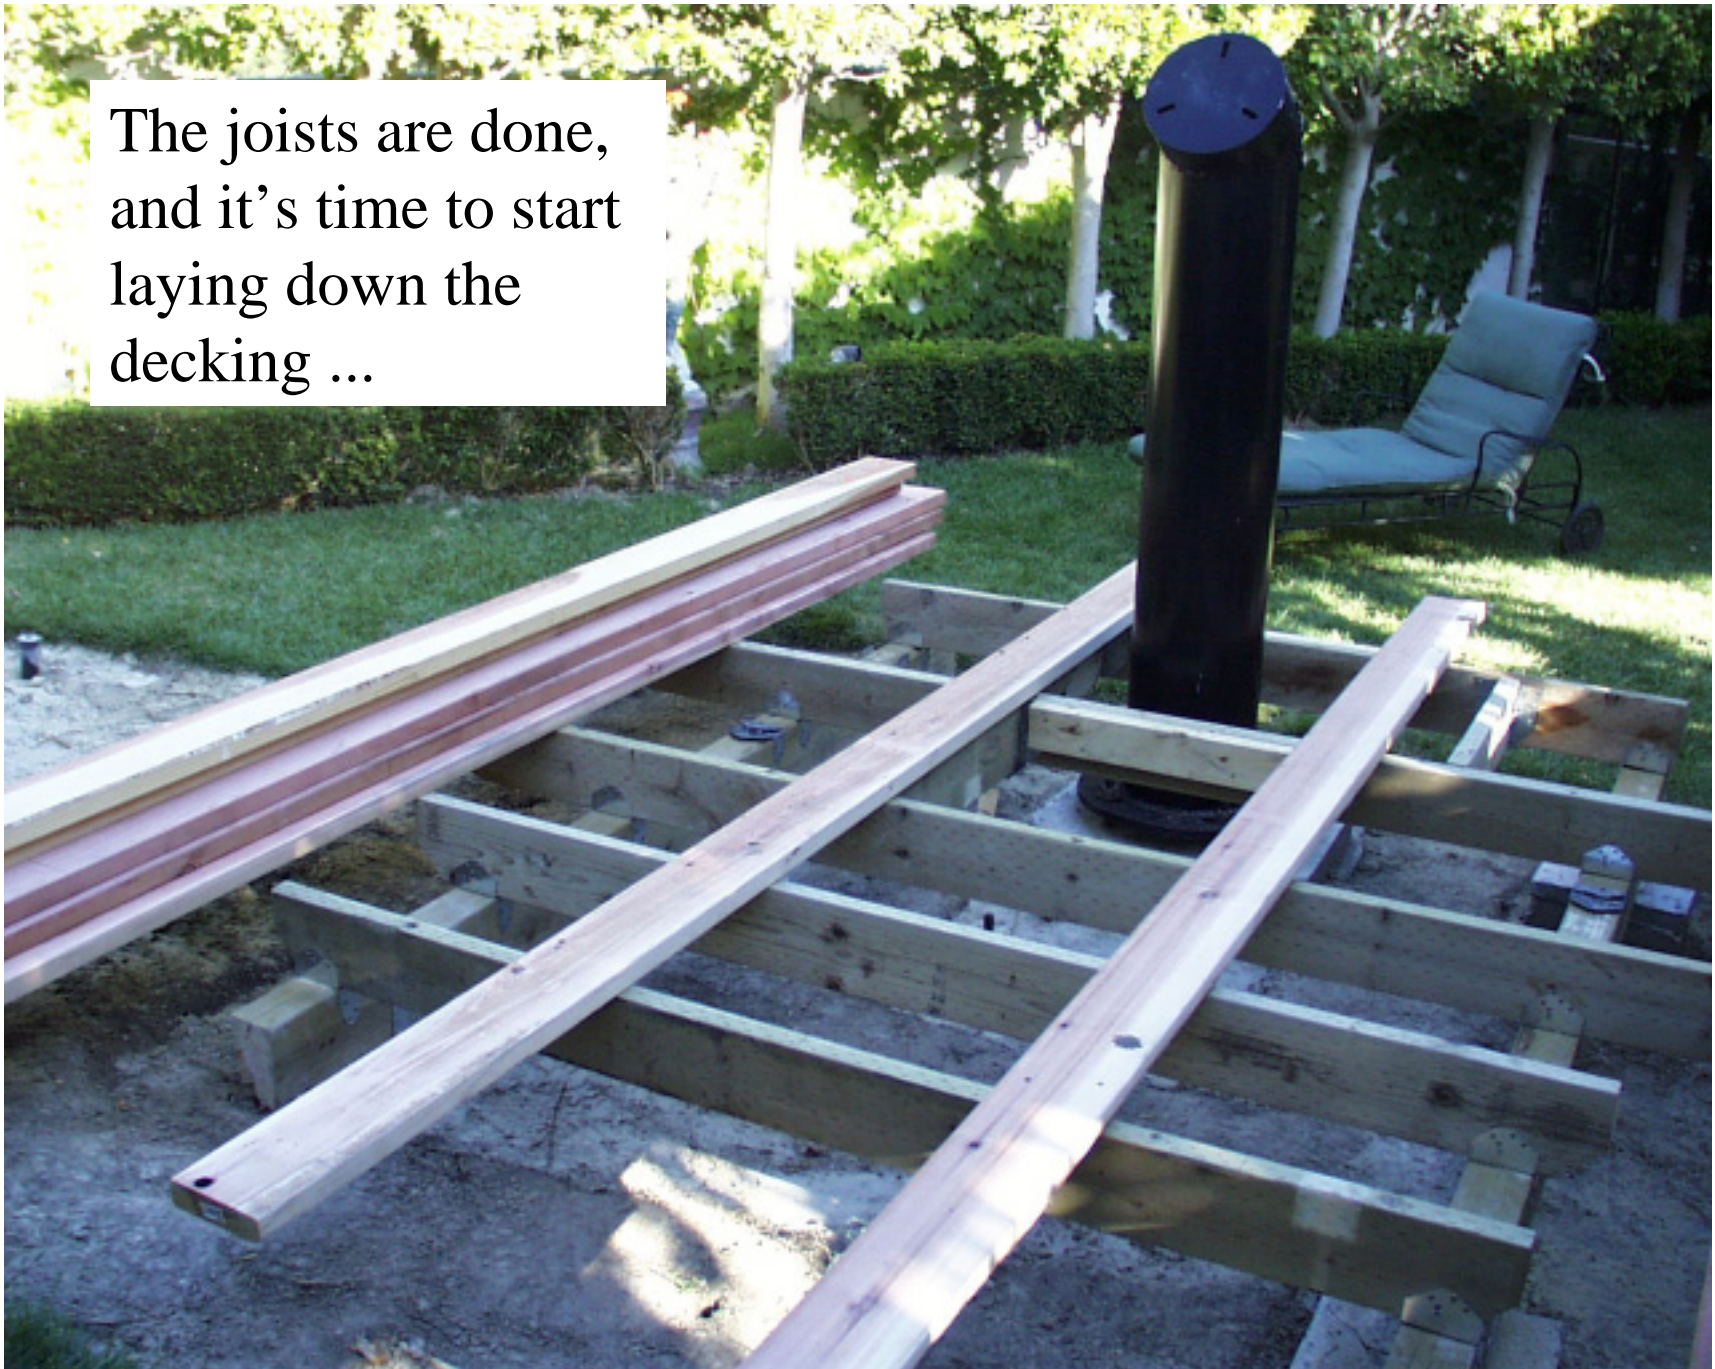

**The pier is erected!**

**My neighbor says we  
should name it  
“Steamboat Willy”**

The joists are done,  
and it's time to start  
laying down the  
decking ...

**Whew, the deck  
is almost done!**

**I mounted the telescope and aligned the pier before starting assembly of the building,**
