

NURT-2001
III INTERNATIONAL SYMPOSIUM ON NUCLEAR & RELATED TECHNIQUES
Havana, Cuba, October 22-26

Havana, 20/06/01

Mr. George O. Odhiambo
University of Nairobi
Nairobi, Kenya
Odhiambo@AVU.org
254 (2) 336885

The Organising committee of the Symposium NURT'2001 has decided to accept your contribution entitled

Nitrogen oxides, ozone and heavy metals analysis of suspended particulate matter (SPM) of air in Nairobi, Kenya

to be presented in the Workshop on Trace and Micro Analysis Techniques. We are arranging the scientific programme in order to include both oral (mainly the high impact contributions) and poster presentations. We will inform you later on what way of presentation has been selected in our programme for your contribution.

We consider that your attendance would be of great value not only for the overall success of the meeting, but also for the enhancement of your collaborative links and exchange of experiences with other colleagues.

We hope that this invitation will serve to support your requests of visa issue and other kind of arrangement you should perform in the event you decide to attend our Symposium. We also thank in advance the support you should receive from your Institution or from third parties to ease your participation in the meeting.

I look forward to hearing from you. Yours faithfully,

Román Padilla
Chairman Organising Committee
