Homeland Security

So there we were...

It was the perfect day to break in a new hare. This was I.C.P.'s Primoris Lepus or First Hare. As is the tradition amongst the hash the Hare Raiser, Scope Dees Nuts, is to lay trail with a hasher if they require training. So ran train on him we did.

The hares and hounds staggered in like so many drunken sailors on shore leave and just as sharply dressed. The Start location was the parking lot of Homeland on Czech Hall Road in Yukon. Our new RA, Dyke Whisperer, called the group to order for the chalk talk. Scope did his best to make the markings as vague as possible before Dyke brought the hares to their knees blessing him with his sacred white stuff.

The hares were away soon followed by the hounds. The hounds being of poor eyesight and heightened intoxication were having issues finding trail and staying on it. Eventually someone found trail, stories conflict in that everyone is taking credit for it.

The hares led the hounds in and around the cookie cutter urban jungles of East Yukon beer stopping at a local Public House called "Big Dicks." A location aptly named for every male hasher and some female hashers.

After a brief interlude for hoppy libations the hares were once again off. The trail leading, this time through some of the thickest shiggy this side of I40 and Mustang Road.

As the hounds emerge from the thickest part of the shiggy their phones started blowing up one by one, warning them that the hares had run out of flower

Off in the distance they can see the hares taunting the pack to catch them. Always willing to accommodate when it comes to catching a hare, Rent this Space quickly descended upon the pair, thus resulting in their capture. The trio was quickly joined by the visiting hasher Crusty the Brown from Okinawa H3.

The remainder of the pack filed in. When all had made it ON-IN the hash made it's way to the back parking lot of Big Dicks for Circle.

Here are some of the awards our RA handed out:

FRB: Rent This Space

FBI: Homie Don't Blow That

DFL: Taste Th Rainbow

Hash Shit: Little Spermaid (Georgaphy Lessons)
