

# DISPLAY YOUR KNOWLEDGE

HOW TO CREATE EFFECTIVE AND INFORMATIVE PRESENTATION BOARDS

Start with a sturdy presentation board like a foam display board.

## TITLE

# VOLCANO PREDICTIONS

MATERIALS

PROBLEM

## PREDICTING ERUPTIONS USING SATELLITES

DATA

Use a subhead to describe your headline in more specific detail.

HOW DO WE VOLCANOES?

Header boards make your project title stand out. Create a short, catchy headline that can be read from about 3 feet away.

PROCEDURE

Stick-on letters and project titles can make headings look great.

ACTIVE VOLCANOES

Photos, charts, graphs, and illustrations create interest and visually identify your subject matter.

Make sure you have all of the right supplies; rulers, scissors, glue, rubber cement, paper, and anything else you know you'll need.
