

INTRADAY TRADING STRATEGIES:-

Intraday Trading Strategy 1

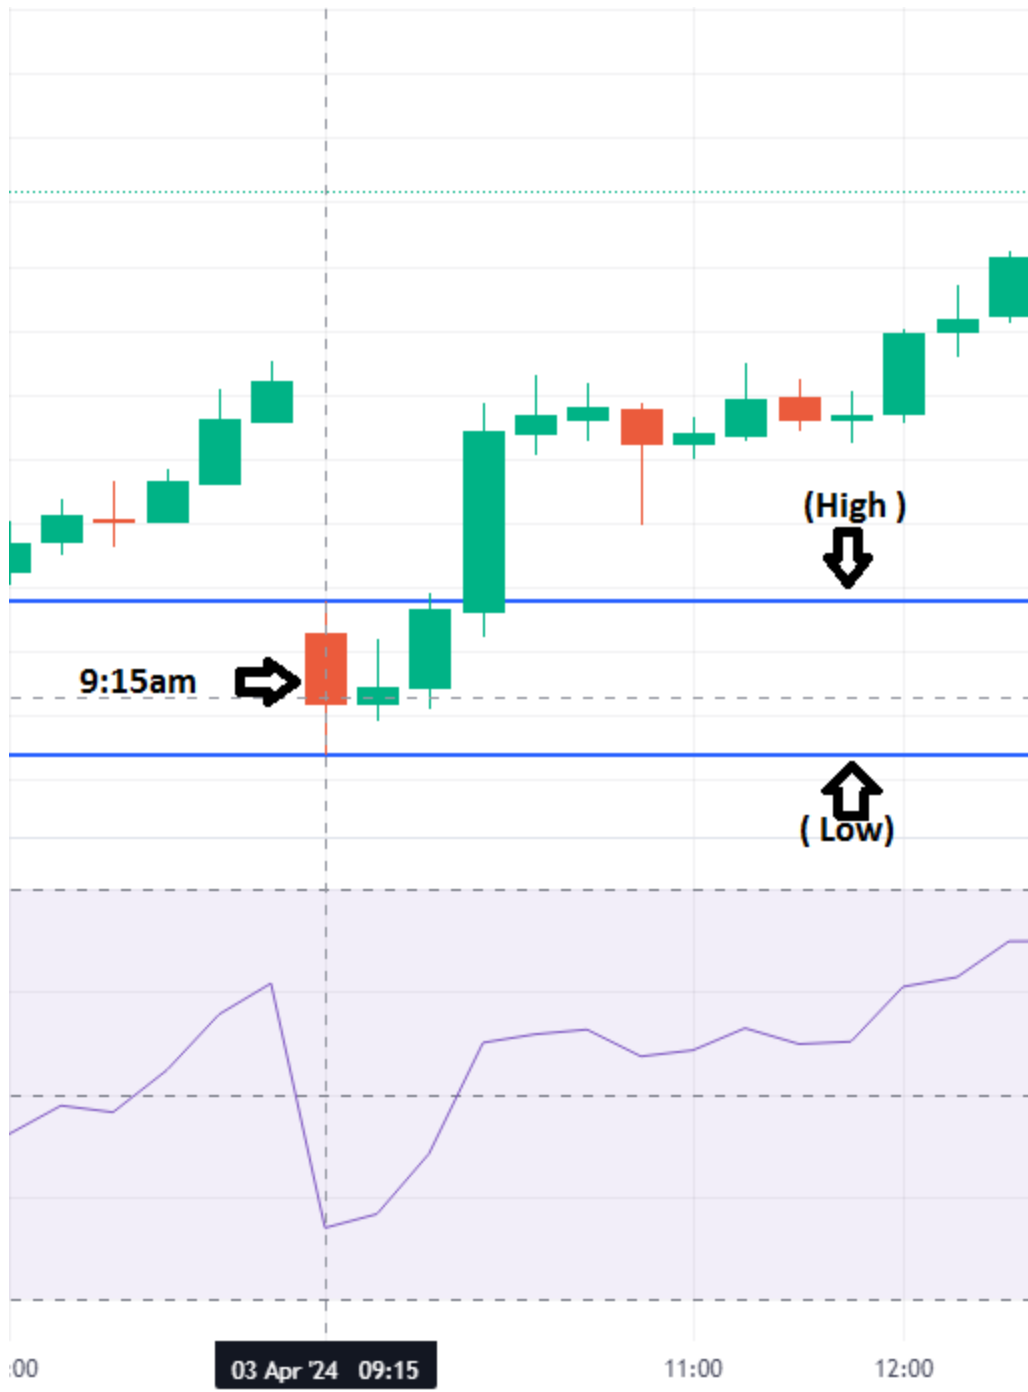

15 minute time frame -First 15 minute candle if high breakout then go for Long and if low break go for short & check volume of candle should be high which will break.

2) Intraday trading strategy 2:-

3) Gap Up & Gap Down Strategy:-

Mark first candle High and Low with Horizontal Line as shown below & make long position if High Break and make short position if Low Break.

4) Ema Cross over strategy :-

Long :-

Make long entry when 9 days EMA crosses above 21 Days EMA and note check volume should be high at crossover .

Short :

Make short position when 9 days EMA crosses below 21 days EMA.

and note check volume should be high at crossover .
