10. Create Amazon Affiliate links.

Once you've created your account, you'll be sent to your personal Associate homepage. This is where you'll find your performance dashboard (including an earnings overview, monthly summary, and total clicks).

How to Create an Amazon Affiliate Link

- 1. Log in to your Amazon Associate account.
- 2. Click on Product Linking in the top banner and select Product Links.
- 3. Add the ASIN of the product OR search Amazon for the product in the bar they provide.
- 4. Click the Go button.

- 5. Click the Get Link button on the right side of result.
- 6. Alternatively, you can use the Amazon Associates SiteStripe to generate Amazon Affiliate links directly from the product page.
- 7. Use the generated link on your site or other promotional materials according to Amazon's standards.

1. Log in to your Amazon Associate account.

Doing this ensures that the link text is generated in away that associates the product you're promoting with your account.

2. Click on Product Linking in the top banner and select Product Links.

This will take you to a page that will prompt you to create your link.

3. Add the ASIN of the product OR search Amazon for the product.

An Amazon Standard Identification Number (ASIN) is a 10-character alphanumeric code assigned to a product by Amazon for identification within their product catalog. You can find the ASIN of a product within the Product Information section of the product's Amazon listing. That means you'll have to grab it within another window.

Alternatively, if you can't find the ASIN, Amazon will allow you to search the catalog for the product you're promoting.

4. Click the Go button.

This will generate a result at the bottom. Be sure to verify that this is the intended product you wanted to promote.

5. Click the Get Link button on the right side.

This will copy your new Amazon Affiliate link to your clipboard, and you can now use that link in your promotions.

6. Alternatively, you can use the Amazon Associates SiteStripe to generate Amazon Affiliate links.

A simpler way to generate your Amazon Affiliate Links is by using the SiteStripe bar that shows up on product pages when you're logged in to your Amazon Affiliate Panel.

Just click the Text button in the Get Link selector. Then copy the generated link that is provided in the popup.

7. Use the generated link on your site or other promotional materials according to Amazon's standards.

Just remember that Amazon's guidelines prohibit the use of the link in offline promotions, email, and eBooks or PDFs. As with most marketing and sales, quality content is at the heart of success. Ensure you're attracting your audience with quality content and share relevant affiliate links with them on your site or YouTube channel.

Your account will be approved for 180 days. During that time, you must make at least one sale, or your account will be closed. That's why it's so important to have a strategy for your Amazon Affiliate endeavors. However, you can reapply for the Amazon Associate program after you've made certain adjustments to your site.
