

Step 1:-

create static folder inside your project folder (my_proejct)

```
<html>
  <head>
    {% load static %}

    <link rel="stylesheet" href="{% static 'ok.css' %}">

  </head>
  <body>

    <h1 class="myclass">hello world how are you
      </h1>

  </body>
</html>
```

Step 2:-

Create ok.css file under static folder :-

And in settings.py file change following code :-

The image shows a code editor window with a dark theme. The Explorer sidebar on the left shows a project structure with folders 'hello' and 'my_proejct', and various Python files. The main editor area displays the 'settings.py' file with the following code:

```
my_proejct > settings.py > ...
