

Ecommerce Website Flow and step by step guidance.

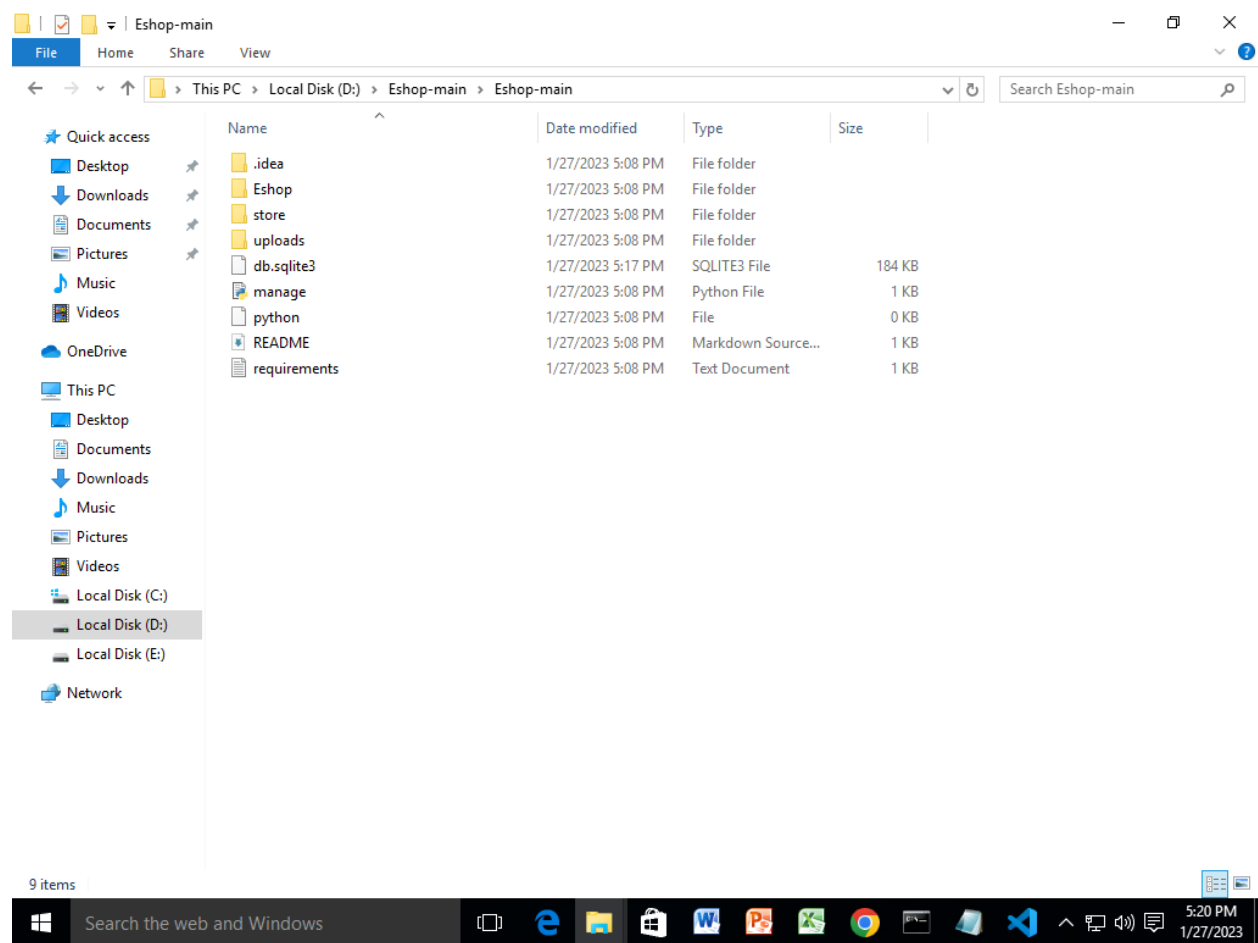

<https://www.geeksforgeeks.org/e-commerce-website-using-django/>

and get all source code and run it.

Download code from

<https://github.com/TanuShree952838/Eshop>

and extract it as shown below

Step 1:-

List your products as shown below :-

The screenshot displays a web browser window with the address bar showing `127.0.0.1:8000/store`. The page features a green header with a shopping cart icon, the text "E-Commerce Store", and links for "Cart 0", "Orders", and "Logout".

On the left side, there is a vertical navigation menu with the following categories: All Products, Women-Clothing, Men-Clothing, Kids-Clothing, Watches, Shoes & Handbags, Books, Home & Kitchen, Health & Personal Care, and Gifts.

The main content area contains two product cards:

- The first card shows a woman wearing a dark brown, long-sleeved, knee-length dress. Below the image, the text reads "knee-length Frock" and "Rs 699". A green "Add To Cart" button is positioned at the bottom of the card.
- The second card shows a black chronograph watch with a metal mesh strap. Below the image, the text reads "Black watch" and "Rs 999". A green "Add To Cart" button is positioned at the bottom of the card.

At the bottom of the browser window, a taskbar is visible with the search bar "Search the web and Windows" and various application icons. The system tray on the right shows the time as 5:14 PM on 1/27/2023.

Step 2:- click on Add to cart and view your cart .
