

Row columns

Use the responsive `.row-cols-*` classes to quickly set the number of columns that best render your content and layout. Whereas normal `.col-*` classes apply to the individual columns (e.g., `.col-md-4`), the row columns classes are set on the parent `.row` as a shortcut. With `.row-cols-auto` you can give the columns their natural width.

Use these row columns classes to quickly create basic grid layouts or to control your card layouts.

```
<div class="container text-center">  
  <div class="row row-cols-2">  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
  </div>  
</div>
```

And For 3 Columns :-

```
<div class="container text-center">
```

```
<div class="row row-cols-3">
```

```
<div class="col">Column</div>
```

```
<div class="col">Column</div>
```

```
<div class="col">Column</div>
```

```
<div class="col">Column</div>
```

```
</div>
```

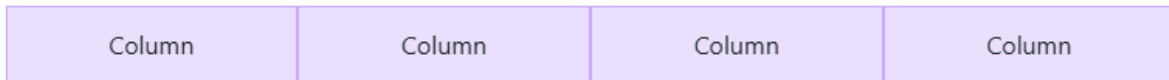

```
</div>
```

And 4 Columns Layout:-

```
<div class="container text-center">  
  <div class="row row-cols-4">  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
  </div>  
</div>
```

Another Example with other Classes:-

```
<div class="container text-center">  
  <div class="row row-cols-1 row-cols-sm-2 row-cols-md-4">  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
    <div class="col">Column</div>  
  </div>  
</div>
```

```
<div class="container text-center">
```

```
<div class="row">
```

```
<div class="col-sm-3">
```

Level 1: .col-sm-3

```
</div>
```

```
<div class="col-sm-9">
```

```
<div class="row">
```

```
<div class="col-8 col-sm-6">
```

Level 2: .col-8 .col-sm-6

```
</div>
```

```
<div class="col-4 col-sm-6">
```

Level 2: .col-4 .col-sm-6

```
</div>
```

```
</div>
```

```
</div>
```

```
</div>
```

```
</div>
```

Note:-

Add Bootstrap 5.3 css file link in your html <head> </head> section

```
<link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.6/dist/css/bootstrap.min.css"
rel="stylesheet" integrity="sha384-
4Q6Gf2aSP4eDXB8Miphtr37CMZZQ5oXLH2yaXMJ2w8e2ZtHT17GptT4jmndRuHDT"
crossorigin="anonymous">
```
