

CSS code for three column layout :-

Html code and css code for above layout:-

```
<html>
```

```
<head>
```

```
<style>
```

```
body {
```

```
  margin: 0;
```

```
  height: 100vh;
```

```
}
```

```
.container {
```

```
  position: relative; /* Make the container a positioned element */
```

```
  width: 100%;
```

```
  height: 100%; /* Full height */
```

```
}
```

```
.column {  
    position: absolute; /* Positioning each column absolutely */  
    top: 0;  
    width: 33.33%; /* Each column takes up one-third of the container */  
    height: 100%; /* Full height of the container */  
}
```

```
.column1 {  
    left: 0; /* Position the first column to the left */  
    background: lightcoral;  
}
```

```
.column2 {  
    left: 33.33%; /* Position the second column in the middle */  
    background: lightblue;  
}
```

```
.column3 {  
    left: 66.66%; /* Position the third column to the right */  
    background: lightgreen;  
}
```

```
</style>
```

```
</head>
```

```
<body>
```

```
<div class="container">
```

```
<div class="column column1">Column 1</div>
```

```
<div class="column column2">Column 2</div>
```

```
<div class="column column3">Column 3</div>
```

```
</div>
```

```
</body>
```

```
</html>
```
