

Here are **Website Design Project Prompts** to inspire your creativity or build a portfolio. I've grouped them by type and complexity to help you pick the right fit.

□ **Beginner-Level Prompts**

1. **Personal Portfolio Website**
 - Design a modern portfolio for a graphic designer, photographer, or web developer.
 - Include sections like About, Work, Blog, and Contact.
 2. **Coffee Shop Landing Page**
 - Create a landing page for a cozy, local coffee shop.
 - Feature menu highlights, store hours, and location.
 3. **Event Promotion Page**
 - Design a single-page site for an upcoming conference or concert.
 - Include registration, schedule, speakers/performers.
 4. **Nonprofit Organization Website**
 - Create a homepage for a charity or nonprofit focused on climate change or animal welfare.
 - Feature donation options, impact stats, and a volunteer signup form.
-

□ **Intermediate-Level Prompts**

5. **Startup SaaS Website**
 - Design a marketing site for a productivity or AI SaaS tool.
 - Include features overview, pricing plans, testimonials, and signup CTA.
 6. **Online Course Platform**
 - Create a multi-page website for a learning platform like Skillshare or Udemy.
 - Focus on course catalog UI, student dashboard, and instructor profiles.
 7. **Real Estate Listing Platform**
 - Design a clean, user-friendly property listing website.
 - Implement filters, map view, agent bios, and listing details.
 8. **Travel Blog & Booking Website**
 - Mix storytelling with functionality.
 - Feature blog entries, travel guides, and a booking tool for tours or accommodations.
-

□ **Advanced-Level Prompts**

9. **E-Commerce Website for Niche Brand**

- Build a modern e-commerce site for a skincare brand, eco-products, or custom apparel.
- Focus on product pages, cart/checkout UX, and responsive design.

10. **Dashboard UI for Analytics App**

- Design an internal dashboard for data visualization.
- Include charts, filters, KPIs, and light/dark mode.

11. **Community Forum Website**

- Create a community platform for developers, book lovers, or gamers.
- Include profiles, threads, comments, voting, and moderation tools.

12. **Accessible News Website**

- Design a news site with a focus on accessibility and usability.
- Include large text modes, contrast switcher, and keyboard navigation.
