

Museum Works

Early days of my free hand drawings, charcoal, crayola paint, etc, are now in frames and can be bought on www.Lulu.com/mcquickdesigns. Support us or get them for your homes, offices, auctions or put them in your museum. None of my "family" members, friends and associates shouldn't have one of these HANG in their home for the current, or if, late Oneil McQuick.

NOTE: They are only available as 24 x 36 in Oak Wood Frame, or else the artwork will be cut off and distorted. So you MUST (1) click the artwork on lulu (2) Then you MUST click "Customize" it (3) Then choose "Size," and choose 24x36 (4) Then choose "Frame," then choose Round Top Wood, Oak. Thanks. Do anything else and you would have wasted your money. Thanks. The Picture Speaks for itself and needs no description.

Or call us toll-free at 1-877-809-1659 and ask for product number 171628820.

This is mainly for store fronts of any sort that wants to add graphic services to their business but don't have a graphic designer or cost to keep one. You can offer graphic services to your existing customer through my freelance handle by simply putting this poster in your storefront window and telling your existing customers of it; plus you get a cut of the proceeds. With the backbone of Graphic Artist Association (GAA), workflow can be pooled and streamed to talented Graphic Artists I choose. Or, you may already offer graphic services at your business or store front, but love OMD or want to support us, this window poster can tell people that graphics are done inside. GAA members can do the same. The poster can be found at links above.

Oneil McQuick Inventions

Another added service to Oneil McQuick Designs is Oneil McQuick Designs Inventions. That is, as graced by the divine you can employ my services to brainstorm your ideology, concepts, etc and bring forward a brand new invention to suit that, for the purpose it was design. Or simply need an invention with no relay but on my part simply from scratch, I can handle that. Need also to improve a product or an existing invention, I can do that as well, much cheaper than anyone else. On the paranormal side, if I were allowed to show the undone and uncredited inventions from ages then you would be startled what humans can make minus the element of suckry! Do the right thing and employ our services. Go to the OMD website (www.McQuickDesigns.com), the link is on every page, then go to the site index and download the forms for invention services, fill them out and send them in. The direct links are:
