You have known I was right about the 3/7 Cavalry and the Battle of Baghdad from the start. Where have you been while I've been riding a thousand miles to get to the story, then sticking my neck out to the government by exposing a cover-up? I know, you've been busy being professional journalists and defending the First Amendment. Good job, boys and girls. You're fully deserving of all mentions you will soon receive in my upcoming book, "April Fools, Captain May."
