OBJECTIVE: To enhance clients' websites by redesigning and re-coding them with the latest version of HTML5 and CSS3 specifications.

ACHIEVEMENTS *Schoolcraft College: Associates of Applied Sciences Degree*

+ *Cgtatschoolcraft.com*
Maintained and administrated the CGT Department's website. Updated the existing content with the new logo configuration, updated the event pages to reflect the new dates and times of 2014/2015 schedule. Converted instructional videos to HTML5-compliant formats and hosted them on an HTML5 video page. Implemented a pop-under window functionality to the forms pages, and incorporated jQuery validation to said forms.

+*Weband3D.com* http://www.weband3d.com
I completely redesigned a website for the purpose of updating the code to conform and comply with HTML5 and CSS3 standards. Used mediaqueries to create a responsive mobile-friendly website, and created custom UI controls.
