

Pack 486

Cub Scout Uniform

Cub Scouts are expected to wear their uniform to all Den and Pack meetings and events. Uniforms can be purchased at the Oconeechee Council Scout Shop on Atlantic Blvd in Raleigh.

Tiger Cubs have a special T-shirt, which is all that is required for them. Wolves and Bears must have a blue Cub Scout shirt, a scarf, a slide for the scarf, and a belt. Webelos have the same requirements, except that they may wear a tan shirt instead of blue. Use this list as a guide:

1 st grade	Tiger	Orange Tiger T-shirt
2 nd grade	Wolf	Blue Cub Scout shirt, gold neckerchief, Cub Scout neckerchief slide, blue Cub Scout belt
3 rd grade	Bear	Blue Cub Scout shirt, light blue neckerchief, Cub Scout neckerchief slide, blue Cub Scout belt
4 th and 5 th grade	Webelos	Tan Cub Scout shirt, blue shoulder loops, plaid neckerchief, Webelos neckerchief slide, blue Cub Scout belt

When you buy a Wolf, Bear or Webelos shirt, the U.S. flag will already be on the right sleeve. You will need to sew the Den number or Den emblem (for Webelos) below the flag, as shown in the top left-hand diagram and the top middle diagram. On the left sleeve, you will need to sew on the Oconeechee Council emblem and the Pack 486 numeral, in the same positions as the “Paul Bunyan Council” and “12” in the top right-hand diagram. That is all you need to add to a new Scout’s uniform. Pack 486 will supply you with the Pack numeral the Den number or emblem, and the Oconeechee Council patch

The Compass Points Emblem for Webelos and the Progress Toward Ranks badge for Scouts are attached to the pocket button on the shirt. Other awards, including Bobcat, Wolf, Bear, Webelos, and Arrow of Light, must be sewn on the left pocket as shown in the bottom right-hand diagram. Arrow points are also sewn on, below the left pocket. Sew them on well enough so that they won’t come off during rough play, but not so well that they can’t be taken off and moved to a larger uniform as your boy grows. All of these badges and emblems are supplied by the Pack as well.
